Allies Are Expected to Bar Constantine From Greek Throne

Probably Will Intervene to Keep Former King Away, Say Jonnart and Cochon, French Observers; Queen Mother Olga Now Regent of Greece.

Paris, Nov. 19.—Allied nations probably will intervene to prevent the return of former King Constantine to the Greek throne, says Charles C. A. Jonnart, former French High Commissioner in Greece and at present extraordinary French Ambassador at the Vatican. A similar opinion is voiced by Baron Denys Cochon, an authority on Greek affairs.

"Constantine," said M. Jonnart, "seems to me not only undesirable for the Allies, but quite impossible. His return to the throne would mean that the Greater Greece of Venizelos would be placed at the service of Germany. It is the right and duty of the protecting powers not to allow a Greece that is stronger than ever to become a vassal of Germany."

Have The Right.
It cannot be denied that Constantine acted as an autocrat and the powers have a perfect right to oppose his return to the throne. An historical precedent may be found for this action. King Otto, the Bavarian monarch, attempted in 1862 to set up absolute rule in that country. This resulted in Anglo-French intervention and the deposition of King Otto and the deposition of the Bavarian dynasty later was replaced by one having its origin in Denmark.

Olga is Regent.
Athens, Nov. 19.—Members of the new Greek Ministry returned to the Palace last night and were received by Queen Mother Olga. They informed her that she was by right Regent of Greece, pending the arrival of former King Constantine, and she agreed to their views.

Several members of the Venizelos Cabinet met last night and discussed the situation. They are preparing to depart.

A Message.
London, Nov. 19.—Admiral Coadunat resigned as Greek Regent last night and was succeeded by Queen Mother Olga. An Athens dispatch to The London Times, immediately a message to the Hellenic people was issued by the new Regent, announcing she had assumed office in conformity with the constitution, "on account of the absence of my well-beloved son, Constantine."

The people were called upon to maintain order and to do nothing calculated to compromise the national peace and prosperity, and the Queen Mother expressed the hope that the people and the army, wherever soldiers might be fighting for the national rights of Greece, would do their duty by the country.

Amnesty.
General political amnesty has been proclaimed in Athens, and all political prisoners have been released. The city is said to be fairly quiet, only unimportant brawls having occurred.

Plebiscite.
Home, Nov. 19.—Frances Andrews and Christopheros of Greece, brothers of former King Constantine, stated to the Associated Press yesterday that they believed the plebiscite for the purpose of deciding upon the occupant of the throne of Greece would be held next week. They declared it would be a demonstration in favor of Constantine that would eclipse that of the recent general election in that country.

"The present attitude of the Greek people," said Prince Andrews, "must not be considered as a condemnation of the foreign policy of former Premier Venizelos. Constantine never favored a policy against the interests of the Entente. Reports stating he concluded a secret understanding with the Central Powers were absolutely false."

BURNED TO DEATH.
Oregon City, Ore., Nov. 19.—Peter T. Johnson, aged 71, a bachelor living alone on his farm west of here, was burned to death when a lamp exploded and destroyed his house.

NEGRO EXECUTED.
Little Rock, Ark., Nov. 19.—Charles Cooper, a negro, convicted in Ouichita County for the murder of Otto Pickett, a white farmer, last May, was electrocuted here to-day.

SEVERAL FAITH CURES IN MONTREAL

Girl Abandoned Her Crutches at Ontario Woman Evangelist's Meeting

Deaf Mute Spoke and Gave Evidence of Ability to Hear

Montreal, Nov. 19.—Deaf ears unstopped, mute tongues loosened and palsied and atrophied limbs restored to their normal functions so that crippled and palsied people walked off a platform without aid and a deaf mute spoke and gave evidence of ability to hear, were witnessed here last night in Old St. Andrew's Church by a crowded congregation when Mrs. Aimes Semple McPherson, the woman evangelist of Ontario, exercised her healing ministry.

One girl stated to have been a sufferer for years from hip disease, laid aside her crutches and walked up and down with her arms in the air.

FRENCH CROPS ABOVE LEVEL OF PRE-WAR PERIOD

New York, Nov. 19.—Owing to intense efforts of peasants in recultivating their fields, helped by the Government, the crops in France are now able to feed themselves for the first time since 1914, cable advises to the director-general of the French services in the United States here announced to-day. This year's crops in the devastated districts will exceed pre-war production, it was stated. Not only quantity, but the quality of the 1920 crops is excellent, with the yield unusually heavy.

BOND MEN ADVISE CITY ON NEW LOAN

Urged Temporary Financing or Miniature Victory Loan Drive Here

Three plans for financing civic expenditures which must be made immediately were suggested to the city council yesterday afternoon by representatives of local houses. The attractive proposals were:

1. That the city secure the aid of the banks to carry it through the present difficult times and issue no bonds to cover the projects under consideration.

2. That the city issue a loan of some \$350,000 locally, the bonds to be sold by the bond houses of the city in the same way as Victory Bonds were sold during the three Victory Loan campaigns.

3. That the city finance itself temporarily in New York, as seven of the nine provinces of Canada are doing at the present time.

The civic authorities have the matter under consideration and will give the bond men an answer within a week.

No Time For Financing.
Recommending that the city issue no bonds just now, the bond men pointed out that the present was not a good time for financing any project. On this account it might be better, the adherents were told, to avoid the issue of the \$350,000 of bonds contemplated until more favorable conditions prevailed.

The bond men offered to get behind the city in a miniature Victory Loan drive to sell the proposed loan. If this plan were adopted the bonds would be sold to the public of Victoria by the bond houses of the city just as Victory bonds were sold during three loans, and as Provincial Government bonds are to be sold in the near future. The sales campaign would be organized along the lines of the three Victory Loan drives and the bond flotation would be really a domestic loan.

Temporary Financing.
The bond men strongly urged the city not to attempt any long-term financing, and pointed to the advantages to be gained by short-term financing in New York, as had been accomplished by the Provincial Government of British Columbia and other provinces. It would be a poor policy, said the bond experts, for the city to tie itself up to long-term bond issues floated under the plan of the Provincial Government, and when high rates of interest had to be paid. It would be far better to float temporary loans with the expiration date when they had matured further money could be borrowed more advantageously.

It would be possible at present the bond men thought, to float three-year bonds at six per cent, payable in New York at par or even higher, while in Canada such bonds would have to be sold at a price which would yield the investor seven and one-half per cent interest. The city, in issuing bonds in New York, would be risking a further drop in Canadian exchange, but the probabilities were conceded to be that the Canadian dollar would increase in value during the next few years.

The bonds which the city proposes to issue would raise money to pay for the Fairfield Road, paying the Pandora Avenue extension, and a part of the new Johnson Street Bridge work.

7.8 PER CENT. OF SALEM, OHIO, PEOPLE HAVE TYPHOID

Salem, Ohio, Nov. 19.—Seven hundred and eighty persons were to-day suffering from typhoid fever in this little city of less than 10,000 people. Four emergency hospitals established within the last few weeks were filled with patients, and the situation, according to R. A. Lamont, chairman of the Citizens' Relief Committee, was desperate. "We haven't reached the peak of the epidemic," he said.

All Parties Engaged At Meetings This Evening

Seven political meetings in the interest of candidates in the present election campaign will be held in Victoria and the surrounding districts to-night. The most important of these will be the Opposition meeting in the Sailors' Club, Esquimalt, where W. J. Bowser, K.C., leader of the Opposition, will speak, and the meeting of Government supporters from all wards of the city and of all members of the Liberal Association in the Government campaign headquarters in the Arcade Building.

A number of other meetings, also set forth elsewhere in this issue, also are scheduled to take place to-night. Indeed, every party interested in the present campaign will appeal to the electors through its candidates in the course of the evening.

Meet to Organize.
The meeting of Liberals from all wards of the city at the Liberal headquarters in the Arcade Building will confine itself to organization work. There will be no speakers. All members of the Liberal Association are invited to attend.

Preparations are complete for the Government meeting in Semple's Hall to-morrow night, when the Government candidates in Victoria will speak. Dr. M. Raynor, it was announced, has agreed to preside at this meeting. A big turnout of Victoria West electors is expected.

On Monday night the Government candidates will speak in Margaret Jenkins School, and on Tuesday at the Princess Theatre. At this meeting Mrs. Watt, M.B.E., will be among the speakers.

George Bell's Candidature.
Supporters of George Bell, independent Liberal candidate in the present election, met in the Victoria Club last night to consider plans for returning him to the Legislature. A large number of ladies and gentlemen, all interested in politics, attended, and Mr. Bell stated afterwards, and his supporters at the club, that he was not divided. Several meetings at which Mr. Bell will speak, will be held next week but arrangements have not progressed sufficiently yet to be announced.

Mr. Bell declared after the meeting last night that he had been agreeably surprised by the support which had been tendered him by men and women who, in the past, have stood firmly for the two major parties.

TO BE MARRIED.
Washington, Nov. 19.—Mary Washington Bond Morosoff, great-granddaughter of George Washington, is to be married January 19 to Captain William Lafayette Crabbe, of the United States Marine Corps.

CHICAGO HANGING.
Chicago, Nov. 19.—Arthur Haensel, convicted of murdering his wife, was hanged here to-day.

LIBERAL MEETING To-morrow, Saturday Night Semple's Hall, Victoria West

Chairman: DR. M. RAYNOR

Mrs. S. M. Morton, the well-known soloist, will sing.

God Save the King

Everybody Welcome Ladies Specially Invited.

Campaign Manager, Phone 1520

WREATH OF MAPLE LEAVES ON SOLDIER'S GRAVE IN ABBEY

London, Nov. 19.—(Canadian Associated Press)—The last wreath to be placed on the grave of the unknown soldier in Westminster Abbey was one composed of maple leaves, which was sent from Canada by the only surviving winner of a Victoria Cross at Lucknow during the Indian Mutiny. Canon Westlake placed it on the grave as the last watchers have been sealed up.

FARMERS' PARTY IN MANITOBA HOUSE

Many Planks in Platform of Newly Formed Group in Legislature

Change to Permit Women to Sit on Juries Is Advocated

Winnipeg, Nov. 19.—(Canadian Press)—Pledging themselves to a provincial referendum on the liquor question, to the abolition of direct taxation, the abolition of boards and commissions in the Government, and the creation of a Labor portfolio in the Provincial Cabinet, and to a rigid policy of provincial economy, the members of the newly formed Independent Farmers' Party, which met in the Manitoba Legislature have drawn up their platform, containing twenty-four planks, many of them designed for the expansion and protection of agriculture in the province. The platform was made public to-day.

In the preamble it is stated that the party has in view the entire elimination of party patronage, party friend privileges and party corporation privileges, which have heretofore been the curse of past Governments.

Planks.
The platform includes the following clauses:

Establishment of provincially controlled abattoirs and cold storage plants, increased taxation on non-productive lands, return of the natural resources to the province by the Dominion Government, completion of the Hudson Bay Railway, a vigorous road roads policy and a Cabinet portfolio for proper supervision, and the application of automobile license taxes toward road expenditure, provision of adequate educational facilities to give every child an elementary education, thorough knowledge of the English language, promotion of the status of the teacher, a pension system for teachers, and the building of a suitable time of now university buildings, equality of the sexes in regard to pay, equality in divorce, civil status and lower laws, appointment of women as provincial officers, amendment of the Jury Act to permit women to sit on juries and the appointment of women magistrates and juvenile officers, and finally, adherence to the principle of direct legislation, initiative, referendum and recall.

Saturday, Nov. 20, 8 p.m.—Saatchi Liberals, Cordova Bay Inn. Saatchi Conservatives, Royal Oak Hall.

City Liberals, Semple's Hall. Esquimalt Soldier-Farmer-Labor, Colwood Hall.

Monday, Nov. 22.—Saatchi Liberals at Prospect School. City Liberal, Margaret Jenkins School.

Saatchi Soldier-Farmer-Labor, Gordon Head Hall. Saatchi Conservatives, St. Mark's Hall.

Tuesday—City Liberals, Princess Theatre. Tuesday, Nov. 23.—City Soldier-Farmer-Labor, Semple's Hall.

Saatchi Liberals, East Road Temperance Hall. Saatchi Conservatives, Prospect School, West Road.

Wednesday, Nov. 24.—Saatchi Liberals, Royal Oak Hall. Saatchi Soldier-Farmer-Labor, Temperance Hall, East Road. Saatchi Conservatives, Gordon Head Hall.

Montreal, Nov. 19.—(Canadian Press)—Excise stamps as a chopped up part of Canadian smoking tobacco formed a surprising part of the evidence at yesterday's session of the tariff commission here. The statement was made by J. J. Denis, M.P. for Joliette, Quebec, who said that as a result of the excise duties on Canadian tobacco, probably 300,000 pounds of stamps were cut and panned off on the public as tobacco.

Mr. Denis further stated that Canada tobacco grown in this Province had so improved that it was largely used for cigars and was practically as good as an ordinary imported American tobacco and rapidly becoming better. He urged, therefore, that the tariff on foreign tobacco should be increased, while he strongly urged that the five cents a pound excise duty be removed, together with the inland revenue stamps.

Over \$30,000,000.
Sir Henry Drayton looked up the figures and remarked that the Government was getting better and better. A carefully prepared statement was presented for the printing industry of the Montreal district by Anson W. Wright. Trade returns showed that books and printed matter to the extent of \$11,240,184 had been imported from the United States in the last fiscal year, and this, he urged, was not a good condition as foreign printed matter inevitably incalculated values differing from those of our own Dominion.

In view of these facts, Mr. Wright urged that at least the present measure of protection be continued.

MRS. W. HOHENZOLLERN VERY ILL AT DOORN, MAY LIVE FOR WEEKS

Doorn, Holland, Nov. 19.—Mrs. W. Hohenzollern, former Kaiserin of Germany, who yesterday suffered another severe heart attack, appeared last night to be in a more serious condition than officials at Doorn Castle would admit. All her sons and daughters were notified of her illness and are expected here to-day.

Ex-Prince Henry of Prussia, brother of W. Hohenzollern, former Kaiser, may also arrive to-day. The greatest depression prevails at Doorn Castle. Dr. Heymans Vandenburg, a heart specialist, examined Mrs. Hohenzollern yesterday and found her condition dangerous. She, however, may linger for many weeks.

Barnes Says League Should Now Take in Germany as Member

Former British Minister, Representing Laboring People Tells League Assembly Majority of British Workers Want Former Enemy States Admitted.

Geneva, Nov. 19.—(Associated Press)—Immediate admission of Germany and the other former enemy states as members of the League of Nations was urged before the League Assembly to-day by George Nicol Barnes, a member of the British delegation. Representing the laboring people of Great Britain, Mr. Barnes, who formerly was a member of the British Cabinet, said he knew the majority of them demanded that all enemy states be admitted without delay.

The British delegate recalled the fact that Germany had taken part already in the deliberations of the international labor bureau established by the League.

"The people of Great Britain, whom I represent here," he said, "do not forget that the Central Powers plunged the world into war. They do not forget the misery and devastation caused. But the question now is to rescue the world from ruin, and the co-operation of the former enemy states is needed."

"What is needed above all is greater production and the utmost freedom in business transactions, and this is unobtainable as long as the world is divided into two camps."

Mr. Barnes, who was customarily listening to speakers without uttering his sentiments until he has finished his remarks, broke into general applause.

"Countries kept out from association with us will form an association of their own," the British delegate added, "and we shall return to the dangerous pre-war system of alliances."

Criticized Inaction.
Mr. Barnes in his speech, which was delivered in the course of a discussion on the report to the Assembly made by the Council of the League, spoke approvingly of the action of the Council on some questions but criticized its inaction during the past year while Poland and Soviet Russia were engaged in hostilities. He cited Article 11 of the League covenant, providing that any war or threat of war should constitute a matter of concern to the whole League and that it should take any action deemed wise and effectual to safeguard the peace of nations and inquired why the Council had taken no action under that article to prevent the Russo-Polish War.

Threatened.
The British delegate held that it was quite possible for the League to do something to prevent a further outbreak of hostilities between Poland and Soviet Russia, which he declared was unmistakably threatening, in spite of the Russian action under that article to prevent the Russo-Polish War.

Article 16.
The Dutch Minister of Foreign Affairs, H. A. Van Karnebeek, also dealt with the question of registration of treaties. He called attention to the provision of the Treaty of Versailles that treaties were not binding until they were registered. He said there were several interpretations of Article 16 of the covenant, which contained this provision, and he proposed that it be studied carefully in the Assembly or by a commission with a view to its clarification.

Natural Resources of Prairies Still Problem

Ottawa, Nov. 19.—(Canadian Press)—Transfer of their natural resources to the prairie provinces by the Dominion Government is likely to be again soon to the forefront. Again and again within recent years the question has been discussed but no solution has been found for difficulties encountered. The view taken by the Dominion Government, it is stated in well-informed circles, is that the question is entirely one for settlement between the eastern and prairie provinces. The Dominion Government raises no objection to the transfer but is unable to meet the position taken by the eastern provinces that they should be given an increased subsidy as a quid pro quo.

Reports of possible legal action to enforce transfer of the resources have aroused much interest here, but it is not thought likely that any such steps would meet with success.

Consented Action.
Winnipeg, Nov. 19.—Consented action for control of the natural resources may be brought to bear on the Federal authorities by Manitoba, Saskatchewan and Alberta. Following a meeting of the Pro-

School Cost Transfer Versus Per Capita Plan

The population estimates of the Inspector of Municipalities for 1919 as follows:			
All City Municipalities	251,680		
All District Municipalities	122,560		
Total	374,240		
City of Victoria, 29,500			
City of Vancouver, 115,500			
District of Oak Bay, 4,000			
District of Saanich, 8,700			
Township of Esquimalt, 4,000			
The per capita grant of \$3, said Mr. Dooley, would cost Government For City Municipalities, \$251,680, at \$5-\$1,255,400; for District Municipalities, \$122,560, at \$5-\$612,800. Total, \$374,240, at \$5-\$1,868,200.			
City of Victoria would receive \$127,500; District of Oak Bay would receive \$37,500; District of Saanich would receive \$43,500; Township of Esquimalt would receive \$20,000.			
Paid by Province			
In City Municipalities	\$251,680		
In District Municipalities	\$122,560		
Total	\$374,240		
Paid by Municipality			
City of Victoria	\$127,500		
City of Vancouver	\$37,500		
District of Oak Bay	\$37,500		
District of Saanich	\$43,500		
Township of Esquimalt	\$20,000		
Total	\$374,240		
The benefit under each system would be:			
Per Capita Administration			
City of Victoria	\$127,500		
City of Vancouver	\$37,500		
District of Oak Bay	\$37,500		
District of Saanich	\$43,500		
Township of Esquimalt	\$20,000		
Total	\$374,240		
Thus the cost to the Government would be			
	\$1,868,200		
	\$1,868,200

MANITOBA FARMERS' POLITICAL PLANS

Will Support Norris Government Party in "All Good Legislation"

Winnipeg, Nov. 19.—(Canadian Press)—While there will be no faction of the Farmers' Party in the Manitoba Legislature with the Norris Government group, the largest group in the House, the farmers will not enter the House as a formal opposition and they will support the Government in "all good legislation." This is the outcome of a meeting of the members of the Farmers' group held here yesterday and it is claimed by Government supporters that it ensures a working majority for the Norris administration in vital matters.

The Farmers' Party rejected proposals for formal amalgamation with either the Conservative, Liberal or Labor sections. The Conservatives took similar action last night.

William Robson, member for Glenwood, was chosen leader of the Farmers' Party today. A. B. Boivin, M.P.P. for Iberville, was elected secretary of the group. The convention is being held behind closed doors.

The farmer group will enter the Legislature as an absolutely independent unit and will not oppose the Norris administration; neither will it support the Government except in measures which the party believes in the best interests of the province.

Mr. Boivin is quoted as saying:

"Good Legislation"
"It is not our intention to enter the House as an opposition body," he added. "While we will not be out as supporters of the Government, we shall support all good legislation."

The farmers' group will support the Government's choice for Speaker when the Legislature convenes, it is said.

A platform is being prepared this afternoon and will have no criticism of the administration.

OTTAWA CONSIDERS DEATH SENTENCES

Ottawa, Nov. 19.—(Canadian Press)—The Government will shortly have a long list of capital cases for consideration. The number of executions already fixed for December, January and February is twelve—the cases numbering 10—and none of them has as yet received Cabinet consideration.

In each of the cases, evidence is now being reviewed by officials of the Department of Justice.

Until now there had been a remarkable decline in the number of capital cases as compared with last year. In 1919 there were altogether twenty-eight capital cases, with fifteen executions. So far this year there have been only eight cases disposed of—three executions and five commutations. The ten cases still to be considered, however, will bring the total to eighteen.

In two of the ten cases the sentences of death involve a double execution. In another sentence of death has been passed on a woman.

PRISONERS RECAPTURED.

Prince Rupert, Nov. 19.—The four prisoners who recently escaped from the local jail have been captured. Two were overhauled near Haysport in an exhausted condition in a shack in the woods. The other two were located on top of a mountain back of Prince Rupert. They were fully armed, had a fire going, and were breakfasting off stolen chickens. They were heading for Alaska, but were surprised by the police, before they could put up any resistance.

COULD PREPARE FOR AN ELECTION IN CANADA QUICKLY

Ottawa, Nov. 19.—(Canadian Press)—While there is little disposition in political circles here to think that a Dominion election is likely to be held in the near future, it is authoritatively stated that there are no reasons why the necessary preparations for the taking of a vote could not be made within a comparatively short time. While things are not now in a state of preparedness, it is explained that the printing of the necessary lists and other necessary work could be rushed.

In this connection it is also explained that the holding of a general election would not necessarily involve a further postponement of the taking of the "bone dry" vote in Ontario, which has been fixed for April 13, 1921. The effect of the enabling legislation to be passed by the Parliament is to reduce the cost of the vote by \$500,000 by using the new Ontario laws. A referendum could be held under existing legislation but the cost would be greater.

CASSIDY RESIDENT DIED IN NANAIMO

Cassidy, Nov. 19.—James McEwan died yesterday at the Nanaimo General Hospital. Deceased met with an accident, October 25, receiving severe injuries caused by the collapse of a flume on which he was working at the Granby Collieries. The late Mr. McEwan was fifty-nine years of age and was employed by the Granby Company at Phoenix for a number of years and only recently came to Cassidy. He is survived by a widow and two daughters and a brother, a conductor on the C.P.R. between Midway and Nelson. Deceased was a member of King Edward Lodge, A.F. and A.M.

A big political meeting will take place at the Community Hall this evening at the instigation of John Fraser, Independent candidate for Newcastle District. Hon. Wm. Sloan will speak in support of the candidate.

Granby Collieries are now producing 1,250 tons of coal per day and expect to increase production to 1,500 tons very shortly.

OFFICERS OF CHILD WELFARE ASSOCIATION

Vancouver, Nov. 19.—A. M. Stephen was re-elected president of the Provincial Child Welfare Association at the annual meeting, held in the City Hall here last night. D. B. Brankin was unanimously elected honorary president. Other officers elected were:

First vice-president, Mrs. B. M. Richards; second vice-president, Mrs. Carson; third vice-president, Rev. A. H. Sovereign; fourth vice-president, Mrs. Labaki; fifth vice-president, Mrs. Arthur Capon; treasurer, J. E. Carpenter; financial secretary, Mrs. Albert McGovern; secretary, J. J. Dougan; honorary solicitor, Garfield King; provincial organizer, Mr. Brankin; publicity manager, Mrs. J. L. Brown.

Elected to the executive council were Mrs. Stalton, Edward Day, Geo. Harrison, A. Mulholland, Mrs. Annie Woods, Mrs. J. Muirhead, Mrs. J. C. Kemp and L. J. Brown.

Mrs. J. L. Marstrand was unanimously elected convener of the service corps branch of the Association.

VANCOUVER G.W.V.A. WIVES TO OTTAWA

Vancouver, Nov. 19.—Indignation was expressed by the Great War Veterans at their meeting last evening at the report from Ottawa that the Federal Government had refused to give any further assistance to returned soldiers. It was decided to send a telegram to Ottawa asking if the report was true.

FREIGHT RATES

Winnipeg, Nov. 19.—There is a strong feeling in business and legal circles here that in view of the reference back to the Commission of two points by the Government, there will be a drastic modification of the original freight rate order which the Board of Railway Commissioners meets in Ottawa on Monday.

Some significance also is attached to the statement by Premier McPherson at Holland, Man., Tuesday, that he hoped the Commission would be able to reduce the rates after carefully considering these two points, although the matter was entirely one for the Commission, the only body that could deal with the question of schedules. Strong efforts will also be made to get the order suspended pending the Commission's decision.

HAD BAD COUGH FOR THREE YEARS

The constant hacking, coughing, persistent cough that sticks to you in spite of everything you have done to get rid of it, is the kind that is dangerous.

There is no remedy that will relieve coughing, unless it is the kind like Dr. Wood's Norway Pine Syrup.

It has a healing and soothing action on the air passages, and at the same time acts as a disinfectant of the respiratory organs, destroying the germs that produce serious lung complications.

Mrs. John Miller, Minburn, Alta., writes: "I had a very bad cough for three years. I went to several doctors and tried different cough medicines, but nothing seemed to help me. One day a friend told me about Dr. Wood's Norway Pine Syrup, and after using several bottles I became completely relieved. I always keep a bottle in the house, and also recommend it to others."

Dr. Wood's Norway Pine Syrup has been universally used for over 30 years, and so great has been its success, it is only natural that a great many imitations have been placed on the market. The genuine is put up in a yellow wrapper; 5¢ and 10¢ bottles; price 35c and 60c a bottle; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

NIGHT COUGH

You know it! It begins with a tickling, irritating sensation in your throat. You cough to clear the throat. In a moment there it is again!

A minute's peace, then again you cough, and so on until you cough your throat sore, and by the time the cough is sufficiently allayed to permit you to sleep, you are thoroughly worn out. This kind of experience is particularly trying to old people.

PEPs make this sort of thing quite unnecessary.

Put a Peps pastille on your tongue and allow it to slowly dissolve. Healing fumes are then liberated, which mingle with the breath and are carried to the remotest parts of the air passages and lungs, allaying the irritation and soothing the inflamed membranes, thus ending the cough and making sleep possible.

PEPs are also best for bronchitis, laryngitis, asthma, sore throat and colds. Try Peps at our expense. Send this advertisement and 1c. stamp (for return postage), to Peps Co., Toronto, and receive FREE TRIAL PACKAGE. All dealers, 50c. box.

PEPs

A PROTEST FROM JAPAN TO STATES NOW IS URGED

Tokio, Nov. 18.—A committee of Tokio journalists adopted a resolution here to-day demanding that a national protest be made against California legislation hostile to the Japanese. They decided to hold a mass protest meeting in Tokio.

The Kokumin Shimbun and The Yohsen Chohoku, which led the outcry against the California legislation, simultaneously advocates appeals to public opinion in preference to strong courses. Japan's resistance to California legislative discrimination should take the form of an appeal to the public opinion of the world, they say.

The Asahi Shimbun suggests that the Shantung question should be decided by international arbitration. It says that Japan has nothing to fear from such a course.

BOWSER ADDRESSED DUNCAN AUDIENCE

Duncan, Nov. 19.—W. J. Bowser, Provincial Conservative Leader, addressed a meeting here last night. Some in the audience were inquisitive, and it was not only Mr. Bowser to whom their attention was directed, but C. P. Davis, who spoke first, was heckled considerably, and Mr. Cheeke, Conservative candidate who followed Mr. Bowser and spoke briefly, also encountered some interruptions.

Mr. Bowser spoke of the financial position of the Province saying that the loan floated recently by the Government, owing to the principal and interest being payable in New York and the adverse rate of exchange, was costing between 9 and 10 per cent.

The Conservative Leader spoke of the soldier settlement areas and the natural resources of the Province.

SPRACKLIN TO BE PLACED ON TRIAL

Toronto, Nov. 19.—J. O. L. Spracklin, the preacher-licensed inspector who shot and killed Beverly Trumble recently during a raid on the latter's hotel at Sandwich, will be placed on trial on a charge of "killing and slaying" Trumble, despite the fact that a coroner's jury decided that he did it in self-defence in the performance of his duty as a licensed inspector. This decision was announced by Attorney-General Raney this morning after a conference with Crown Attorney Rodd, of Windsor. After preliminary hearing, Spracklin probably will be allowed out on bail until the Sandwich assizes, about six months hence.

JAMAICA GINGER UNDER BAN IN U.S.

Washington, Nov. 19.—Jamaica ginger has come under the prohibition ban. An order issued by Commissioner Williams of the Internal Revenue Bureau, effective in ninety days, classes ginger, whether sold as Jamaica ginger, extract of ginger or by whatever name, as an alcoholic preparation fit for use for beverage purposes and subject to prohibition regulations.

BRITAIN NOT SEIZING BLACK SEA PORTS

London, Nov. 19.—The Foreign Office has denied that Great Britain had any intention of seizing Batumi or other ports on the Black Sea. The Moscow Soviet had issued a protest against the supposed intention of occupation.

SUBMARINE CHASERS.

Santander, Spain, Nov. 19.—A squadron of six submarine chasers, purchased by the Spanish navy from the British Admiralty, was delivered here to-day. All of them are of the Wasp type.

LARGE AUDIENCE IN NANAIMO HEARD HON. WM. SLOAN

Nanaimo, Nov. 19.—When Hon. William Sloan spoke here in his own constituency last night the Dominion Theatre was filled to capacity. Dr. T. J. McPhee, president of the local Liberal Association, was chairman.

Mr. Sloan roundly attacked the late Conservative administration. He said that under the Bowser regime the Provincial credit was ruined. The present Government had a \$500,000 million dollar loan at 10, the highest reached by any Province. Of 575 appointments, 88 per cent, or 510 were returned soldiers. The Government record was beyond reproach. Even Mr. Bowser admitted that the Liberal Election Act was good.

Mr. Sloan pointed to the Government's social legislation. His own department looked after the interests of industry and the miners. He stigmatized the Opposition Leader's talk as "rag-time," and his veracity as reminding him of the camel getting through the needle's eye. "You can't," he said, "believe Mr. Bowser any time, any place, anywhere."

PROTECTION FOR CANADIAN HERDS

OTTAWA, Nov. 19.—It is announced by the Department of Agriculture that in order to prevent introduction of animal diseases into Canada, a Ministerial order governing the importation of hides, skins, etc., has been passed.

These regulations, which come within the Animal Contagious Diseases Act, are administered by the Veterinary Director-General. Under conditions stated in the act, importation of hides, of horses, cattle and buffalo, calfskins, sheepskins, goat skins, deer skins, glue stock bones, hoofs and horns into the Dominion of Canada from any of the countries of Europe, Asia, Africa, South America, Central America, Mexico, New Zealand and Australia is prohibited.

Regulations governing the importation of wool and hair have been passed with the same purpose in view.

PILES

**\$11,815 MORE TO
M'GILL FROM B. C.**

University Graduates in This
Province Send More
Money East

Montreal, Nov. 19.—Additional subscriptions totalling \$11,815, raised for the McGill University Centennial Endowment Fund by committees of graduates in British Columbia, were announced at the daily campaign luncheon here yesterday.

British Columbia, leading the graduates' organizations other than in Montreal in the matter of subscriptions, has adopted as its slogan "Help to place McGill where her position will never be challenged. The greater name, better for us."

The total announced at the luncheon yesterday was \$3,155,869. Twenty-four hours' canvassing had brought in \$440,723.

One Montreal team announced that in addition to the subscriptions reported, a contribution had been received from the Williams Thomas Company, Ltd., in the form of 300 large posters, 65 of which were hand-painted, and had been displayed throughout Montreal, advertising the campaign at a cost to their donors of \$1,235.

Speaking at the luncheon, Dean Adams expressed his opinion that it was impossible to look upon such a gathering as that before him without a sense of inspiration to join in the effort which was being made by the graduates and the citizens towards a good cause. He spoke of the administrative responsibility which rested in the hands of the masses, and emphasized the duty of the educated public to see that the masses received full opportunity of education.

The support of McGill at the present time, he felt, would be of benefit not only to Montreal but to the whole of Canada. He reviewed briefly the uses of the various faculties and departments at McGill, pointing out their value to the public and the country.

Subscriptions
Among the larger donations announced at the luncheon yesterday were: Imperial Tobacco Company of Canada, \$50,000; Hon. Lorne C. and Mrs. Webster, \$50,000; Robert Adam, \$15,000; Wm. H. Birks, \$25,000; Mr. and Mrs. Geo. Caverhill, \$10,000; P. Lyall & Sons Construction Company, \$10,000; Sir Mortimer B. Lavin, \$10,000; Southern Press, \$10,000; Sherbrooke Graduates, \$10,000; Lindsay, C. W., \$10,000; Wabasso Cotton Company, \$10,000; late H. S. Duggan and K. L. Duggan (through G. H. Duggan), \$5,000; Mr. and Mrs. Wm. Lyall, \$5,000; Belgo Pulp and Paper Company, \$5,000; H. W. and Hon. Mrs. Beaulieu, \$5,000; the Misses Scott, \$5,000; Lady Hickson, \$5,000; Lady Van Horne, \$5,000; Ogilvie, Miss Alice H., \$5,000; MacKay, Hugh, \$5,000; Leslie, A. C., Ltd., \$5,000; MacKay, Edward, \$5,000; Lewis Bros., \$5,000; Ogilvie, G. L., \$5,000; Ogilvie, A. E., \$5,000; Miss Van Horne, \$5,000; Northern Electric Co., \$5,000; The Sherrin Williams Company of Canada, \$5,000; Dominion Transport Company, \$2,500; Thos. Davidson Manufacturing Company, \$2,500; Daniels, F. G., \$2,500; Currie, Sir Arthur and Lady, \$2,000; Garrow, Dr. A. B., \$2,500.

In New York
New York, Nov. 19.—(Canadian Press)—The McGill centennial endowment fund campaign, which commenced last Monday in this city, has received hearty support, it was announced this morning by the New York Graduates Society of McGill University.

**FALSE PASSPORT
SCHEME UNEARTHED**

Berlin, Nov. 18.—Investigation here has disclosed that many Polish passports for Canada, the United States and Mexico were fraudulent and the visas forged. The disclosures followed the investigation into the recent labor troubles in Belgium, the authorities there expressing the belief that they were fomented by Russian agitators. Therefore the Belgian Government instituted an inquiry here.

Information obtained by the British passport office in Berlin also led to the discovery that numerous holders of Polish passports vied for the United States were seeking to enter Great Britain on the representation that their passage had been paid on liners from English ports. Forged passports for the voyage are said to have been shown.

The British passport office now refuses visas for transit through the United Kingdom until the holder produces his tickets.

It is said that about fifty arrests have been made in Belgium in connection with the fraud, but the Belgian Consulate is not willing to discuss the matter in case wholesale arrests should be necessary. The destination of most of the emigrants who have gone to Belgium, it is understood, is Mexico, from which country they think they will be able later to enter the United States and Canada.

**VANDERLIP TO BE
QUESTIONED IN LONDON**

London, Nov. 19.—The American Embassy here was notified yesterday that Washington D. Vanderlip, California oil and mining engineer, who recently was in Moscow, will be closely questioned by the intelligence department of Scotland Yard on his arrival in London, if the present plans of the police are carried out. The notification was given as a matter of courtesy, and is not given in like cases of lesser importance.

The interrogation will not necessarily be made with the view of taking action against Mr. Vanderlip's presence in England, it was said, but with the intention of ascertaining exactly what his activities had been in Russia, in view of the many conflicting reports published in London. Such interrogation, it was pointed out, would be in conformity with the recently adopted attitude of the British Government of discouraging travel between Russia and the United Kingdom.

**ROBBERY MYSTERY
IS CLEARED UP**

Several Arrested following
\$3,500,000 Theft at Council
Bluffs, Iowa

Council Bluffs, Ia., Nov. 19.—Seven more arrests, one confession, the recovery of a large amount of money, all in ten-dollar bills, and the discovery of an automobile last night resulted to-day in clearing up the mystery surrounding the \$2,500,000 mail car robbery in the local yards Saturday night.

Two of the men, H. A. Reed and T. Daly, are white, and the others are negroes. The money was recovered from a chicken house at the Daly home, following the confession of Reed, who rooms at Daly's.

The total amount of money recovered was not announced by officials this morning. Ten persons in all are under arrest and will be given a hearing before United States Commissioner Byers to-morrow.

**WELL-KNOWN
HOTEL MAN IS
DEAD AT DUNCAN**

Duncan, Nov. 19.—By the death of Ernest A. Price at the age of 52 years, which took place this afternoon, Cowichan district loses one of its best known citizens. Heart failure was the immediate cause of death. Mr. Price having been taken ill just one week ago.

Mr. Price came to the Province in 1887 and was first associated with the Okanagan district. When first coming to Cowichan he purchased the property now the home of G. Mutter, at Somenos. He later joined his brother, Frank Price, and as Price Brothers they were associated with the Lakeside Hotel at Cowichan Lake. Later selling out their interests there they built and operated the Troubadour Hotel in Duncan, the deceased only having recently bought on his brother Frank's interest in the Troubadour and had taken full charge.

The late Mr. Price enlisted for service in the Great War and went overseas with the University Battalion from Vancouver. Deep sympathy of the community will go out to the wife and family who survive. Besides his wife and 4 children, Muriel, Gweneth, Dodo, and Billy, he leaves his brother Frank of this place, a sister, Mrs. Mariott of Parksville, and two brothers, one in Toronto, and one in Montreal.

The funeral will be held from the family residence, Quamichan, on Saturday afternoon at 2 o'clock, at St. Peter's Church, Quamichan.

**JAMAICA RATIFIES
TRADE AGREEMENT**

Ottawa, Nov. 19.—A cable from Kingston, Jamaica, announces that the Legislative Council of Jamaica has ratified the Canada-West Indies trade agreement.

Jamaica is stated to be the fourth of the West Indian states to ratify the agreement, the endorsement of all, as well as ratification by the Canadian Parliament, being necessary before the agreement becomes effective.

The agreement is expected to be before Parliament for ratification early next session.

LADY FALKLAND DIED

London, Nov. 19.—The death is announced of Viscountess Falkland, wife of Byron Plantagenet Cary, 12th Viscount of Falkland.

Prior to her marriage she was Miss Mary Reade, daughter of Robert Reade of New York.

**GAIN WEIGHT
AND STRENGTH**

With Bitro-Phosphate on Definite Guarantee

NEW YORK. If you are feeling run-down, weak, nervous, tired-in-the-morning, and generally ailing, these are the symptoms that should warn you to take care of your health.

Four persons in every ten are needing more phosphorus in their bodies. When you see thin and fretful people, or those who are anemic, pale, frail, off dependent or lacking in energy, you may look for the need of certain elements that make for a strong constitution.

Some people, after relying upon preparations composed chiefly of salts, quinine, drastic drugs, iron, calomel, cod liver oil, etc., wonder why they find no benefit. That is easily explained by the fact that such persons need the phosphoric element, which is a most potent essential to health, and contained in BITRO-PHOSPHATE, the famous health preparation. Now obtainable everywhere.

The right thing for you to do is make a trial of BITRO-PHOSPHATE beginning at once. It is not a patent medicine; the formula is prescribed by many physicians for the ailments and weaknesses mentioned above.

Buy a box of BITRO-PHOSPHATE. It is sold and recommended by all good druggists everywhere.

IF IT WERE \$100,000,000

If British Columbia's treasury could depend upon an annual revenue of one hundred million dollars it would be comparatively easy for the Oliver or any other Government to institute all the reforms that our morning contemporary considers should have been inaugurated on about one-tenth of that amount by the Administration which is seeking endorsement at the hands of the electorate. It is argued that the next Government should be prepared to share its revenue with the municipalities; to pay super-annuation out of Consolidated Revenue, to abolish the poll tax, to share its profits on the sale of liquor with the municipalities, to engage in a programme of land settlement that would involve the acquisition of areas adjacent to populated centres, to extend the P. G. E. to the Peace River country at the trifling cost of twenty-five or thirty millions of dollars, to provide cheap stumping powder and machinery for placing the land in a productive state, to build a trans-provincial highway, and to do a host of other things which are looked upon by the Bowser press and candidates as immediately requisite to the salvation of the Province. But as the reader takes his breath he will probably remember that about one-tenth of the annual revenue of British Columbia already is earmarked to satisfy the annual charges on the Pacific Great Eastern Railway that particular Bowser enterprise which donated a fortune to the contractors and a solar plexus to provincial credit.

CONSISTENCY?

If the Dominion Soldier Settlement Board had developed a policy along common sense lines there would have been less unemployment and less discontent among former members of the Canadian Expeditionary Force to-day. We have argued on more than one occasion that the first duties of that Board should have been one of land preparation and the provision of farms from which production might have been expected within a reasonable period. But it commenced its operations under the provisions of an Act with not a scrap of elasticity in it. It applied its loaning machinery to individual cases, it took no heed of community settlement. But it succumbed to the crowning folly when it discontinued its policy of settlement upon improved land and substituted the "pioneering incentive" in an endeavor to settle returned men on virgin soil. Yet the Conservative press and candidates point to the magnificent success of the Dominion Board in contrast with that of this Province, but lose no time in asking the Provincial Government to inaugurate the more intensive policy—at a great expense to the people—which the proper agency has so studiously avoided. Oh, consistency, thou art a jewel!

NOT IN WHISPERS.

When the practical side of life has elbowed its way a little further into the unrealities of our social structure it will gradually dawn upon mankind that distinctions in health are as ridiculous and dangerous as distinctions in caste. Emphasis is lent to the argument by the excellent lecture delivered in this city on Wednesday by Mrs. Neville Rolfe, O. B. E., on the vital need for combating venereal disease. Although it is second only to tuberculosis in its exaction of human lives it is a subject that is still discussed in whispers. Medical science is doing its part to instill into the minds of the

people of every country that as long as prejudice and fastidiousness bar the way to light and healing ignorance will contribute its quota of new victims. The public mind may require a good deal of education before it accepts venereal disease as a parallel of smallpox. Yet how many realize that the latter actually is more loathsome than the former?

It is the stigma of venereal ailments which thrives upon popular disinclination to understand even the rudiments of prevention and cure. But until the social system makes up its mind to shoulder its responsibility to mankind in general human happiness and public health will remain the more vulnerable.

THE REAL CONTRAST.

Bowser writers and speakers are making a great ado over what they describe as the excessive cost of Civil Government in this Province.

For example, The Colonist, with its usual disregard of the facts, declares this morning, "that the salary list of the employees of the Government was \$1,664,222 and to-day it has risen to \$3,202,482."

This contrast is based upon premises hopelessly inaccurate, so much so that we wonder how our contemporary could possibly have got so far away from the facts, when it was so easy to obtain them.

The following is a correct statement of the Civil Government cost for this Province for the years 1915-16 and 1920-21:

	1915-16	1920-21
Legislation	\$2,588	\$2,770
Premier	9,234	10,680
Agriculture	2,502	136,556
Attorney-General	618,053	692,542
Education	103,118	128,622
Finance	331,992	518,244
Fisheries	20,208	9,840
Industries	9,900	35,160
Labor	50,928	45,212
Mines	342,870	505,740
Provincial Secretary	291,740	461,938
Public Works	230,718	215,824
Railways	12,521	18,400
	\$2,175,712	\$2,901,438

It is hardly necessary to point out that Civil Government salaries have increased over thirty per cent. over those of 1915-16, which alone is almost sufficient to account for the difference between the two totals. Every one of the increases in the cost, as well as the increases in salaries, is entirely justifiable. New branches of the public service, which the people of this Province had been demanding for years, have been established, notably, the Workmen's Compensation Board and the Department of Labor, while greater efficiency of administration is apparent all round.

NOTE AND COMMENT

Mr. M. P. Gordon, Bowser candidate in Saanich, says that Mr. Bowser is stronger in the political field to-day than ever he was. If his strength lies in imagination the Opposition Leader is entitled to the compliment.

There was something dramatic in Lord Robert Cecil's announcement to the League of Nations on behalf of the Union of South Africa. It was a sort of final tip to the world that there is more in "solidarity of Empire" than a hollow phrase.

It has been discovered that a good deal of the discontent reported to the British Colonial Office by ex-Imperialists who have recently arrived in this country is due to the fact that many of the men whose lot has not been so happy as might have been did not pass through the Canadian Immigration authorities at the other end.

According to the Bowser candidate in Saanich the record of the Oliver Government is a chapter of depravity. Most of the Opposition arguments are as easy to answer; but this is a solemn declaration which reduces us to silence!

Electors should remember that the annual revenue of this Province from all sources is still under fifteen million dollars. To do all that the Opposition says should be done and should have been done would require something like one hundred million dollars a year to carry out.

WHERE IT STARTED

BANKS
(Copyright, 1920, By The Wheeler Syndicate, Inc.)

The Romans of old had certain individuals called "Argentarii" who lent money and traded in exchange. They are mentioned as early as 350 B.C. These were looked down upon by the nobles and hated by the common people, but were necessary. The first real bank was the Banco di Rialto, in Venice, 1587.

WHY

DO SOME PEOPLE WALK IN THEIR SLEEP
(Copyright, 1920, By The Wheeler Syndicate, Inc.)

Perfect sleep is obtained only when all parts of the body are entirely at rest—when the brain, as well as the limbs and trunk, is totally quiet. When we dream, which is only another way of saying when we are conscious of the thoughts which are passing through our mind, or when we move about or talk in our sleep, we are not enjoying a perfect rest. Some part of the body is still awake.

In this connection, it should be remembered that there are two sides to the faculty which we know as the "mind." One of these attends to the things which we realize we are doing—such as reading, or working or eating. The other takes care of the actions which we perform involuntarily—like walking or breathing or the regulation of our heart beats. Some persons, and particularly those of a nervous temperament, never really sleep. The involuntary side of their brain remains active, and consequently they do things of which they are not aware, such as walking or talking in their sleep, somnambulists obstacles avoid obstacles or save themselves from danger because their eyes are open and the involuntary side of their brain registers the presence of the peril, though the voluntary side may be sound asleep.

"The stars incline, but do not compel."

HOROSCOPE

FRIDAY, NOVEMBER 19, 1920.
(Copyright, 1920, by the McClure Newspaper Syndicate.)

Good and evil stars contend for influence this day, according to astrology. While Jupiter and Venus are in benefic aspect, Uranus, Saturn and Mars are adverse.

Under this way the best laid plans may be thwarted and for this reason matters of importance should be conducted with the utmost caution. Jupiter gives great promise to merchandising and to manufacturing. Beginning at this time there should be increase in trade.

Women will continue to buy lavishly during the holiday season, but there may be a decided tendency on the part of the men to curtail the spending of money.

Mars and Uranus seem to indicate that there will be much fermentation of thought in the public mind. Danger of military activity again is foreseen, but it will be confined within the borders of this country, and may be due to riots or other internal troubles.

This is a most menacing aspect for domestic happiness, since the disposition of men may be toward fault-finding, jealousy and unreasonableness. Uranus is in a place that is read to forecast many lively debates and party dissensions in Congress.

Gratuity will still be encouraged by the stars, but it will be less popular than it has been.

This is a most unfavorable day for women to deal with men in business, and it is likewise most forbidding for romance.

Morality will be more discussed than for many months owing to the prevalence of scandals. All conditions will emphasize the need of right thinking and of protecting the mind against evil counsels. Again frugality and thrift will be much preached. The Winter may bring suffering to many.

Confidence

is as important a part of business relations as oil is of your gas wagon. This has always been our point of view, and it is with considerable business pride that we record the fact that some of those with whom we first did business over thirty years ago are among our largest customers and most loyal boosters to-day.

This organization is one in which you can safely place your confidence without losing it.

WOULD EXTEND RADIUS REDUCTION

Saanich Council Hopes to
Secure Proportionate
Light Rate Cut

Explaining a formal application to the Saanich Council last evening for the passage of a resolution similar in character to that of the city, which agrees to support the application of the B. C. Electric Railway to the Board of Railway Commissioners next week, for the change to the six-cent fare, A. T. King, solicitor for the company, said the company was "not asking any special concessions from the municipality of Saanich."

Councillor Henderson was inclined to criticize an immediate passage of the motion, unless the Council endeavored to bargain for special terms. They had been told by Mr. King that the company would give the seven-cent lighting rate in the three-mile radius area from the Victoria City Hall when the new street railway fare came into operation, and as that circle would exclude considerable areas, as Marigold, where light was consumed, he hoped the Council would stand out for a general reduction outside the area on the basis of a general cut of four cents from the present scale. This would be a proportionate reduction all round.

Reeve Watson said he had met Local Manager Goward that day, and he was not hopeful of success. He was ready to remark that "the rates are exorbitant" at present. However, he was prepared to try if the Council wished.

Councillor Terrell wanted a part of the bargain to be an understanding to extend the Mount Tolmie line to Bay Road.

The Council embodied Mr. Terrell's suggestion in a motion, and then passed a resolution adopting the city's resolution of approval to the application, provided that the rate reduction on lighting be not restricted to the three-mile radius.

The Reeve was asked to take the matter up at once with the local manager.

LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush
Kidneys If Bladder
Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

SPENT MOST OF HER TIME IN BED

Vancouver Woman Was So
Weak She Could Hardly
Move When She Began
Taking Tanlac.

"When I began taking Tanlac I was so weak I could scarcely move," said Mrs. A. Feldman, 667 Union St., Vancouver, B. C., "but now I am feeling just fine. For a whole year I had been ailing, and about three months before I got Tanlac I got in an awful condition."

"I could hardly eat anything, and what little I did force down bloated me until my heart palpitated and I was nearly desperate with headaches, terrible pains racked my whole body, and at one time the small of my back hurt me so bad for several days I thought I would go distracted. I got to where I couldn't sleep well, and the least little noise would throw me into a miserable, nervous condition for hours. I finally got so weak I couldn't do my housework, and was obliged to spend most of my time in bed."

"Although it seems that everything possible was done for me, I couldn't get relief, and finally as a last hope I told my husband to get me a bottle of Tanlac. After taking the first bottle my headaches were gone, and five bottles made me feel like a new woman. I eat anything I want now and just as much as I want without the least trouble, and all my pains have disappeared, and my housework is a real pleasure. Tanlac certainly deserves the highest praise, and I never get tired of talking about it."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

Fawcett's Imperial Double High Oven

Special and Unique Features.

- Two distinct ovens, each twenty inches square, with special tempered glass doors, through which the contents of both ovens may be seen at any time. "Daylight" ovens, placed at standing height, save stooping, save labor, save temper, save money.
- The doors of both ovens are fitted with thermometers, which show the exact temperature at any time.
- White porcelain enamel back, easily kept clean, free from rust, perfectly sanitary, pleasing to the eye.
- Each oven door drops to the level of the bottom, thus affording a convenient shelf on which to rest pans when using the ovens.
- Sectional Liftup Key Plate, which takes the drudgery out of roasting and broiling.
- Large fire box or coal with equal ease and satisfaction. Wood two feet long can be used.
- Very large ash pit and big ash pan, that are just right.
- Draft in ash pit, door as well as in the front. Very convenient when starting a fire and makes the regulation of heat an exact science.
- The Imperial is fitted with a waterfront or water back or both. This affords large heating service, making possible the rapid heating of the water.
- The Warming Closet, fitted with the drop door, is large and roomy and is a very convenient place for warming dishes, etc. Being below the top of the range this closet is much handier than the old style high closet.
- Large top cooking surface, affording great capacity.
- High legs, which make cleaning under the range easy and efficient.
- The flues, thoroughly insulated, are large and of simple construction. They will not clog with the dirtiest fuel. Cleanout doors enable the flues to be cleaned without trouble or difficulty.
- Attractively nickel plated, easily cleaned by wiping with a cloth, no dirty black lead necessary.

PRICE ONLY \$125

Social Personal

Mrs. W. Hunter entertained at an enjoyable card party yesterday afternoon at her residence, Fort Street. Seven tables of bridge and five hundred were in progress, the guests including Lady McBride, Mrs. J. M. Savage, Mrs. A. C. Plummer, Mrs. B. S. Heisterman, Mrs. C. J. V. Spratt, Mrs. T. S. Gore, Mrs. Hermann Robertson, Mrs. Harold Ebert, Mrs. Blackwood, Mrs. Norman Payne, Mrs. Graham, Mrs. Raymur, Mrs. Heming, Mrs. Cronyn, Mrs. Jos. Hunter, Mrs. Carmichael, Mrs. L. A. Genge, Mrs. J. A. Macdonald, Mrs. W. J. Bowser, Mrs. Barrett, Mrs. Lennox, Mrs. Pooley and Mrs. Rowley, Mrs. Bechtel, Mrs. Lennox, Mrs. Adam, Mrs. F. W. Jones, Mrs. R. P. Hithet and Miss Agnew.

Mrs. Harold Darling, of Vancouver, entertained at tea on Tuesday afternoon in honor of her sister-in-law, Mrs. Ernest Hamilton, of Victoria. Other guests were Mrs. Donald Downie, Mrs. Donald S. Rashleigh, Mrs. C. E. Conventry, Mrs. J. Newall, Mrs. J. Pitcairn Hogg, Mrs. Jack Reid, Mrs. Grace Mackenzie, Miss Helen Darling, Mrs. J. F. Worley, Mrs. S. E. James, Mrs. Clement G. Hobson, Mrs. Harold Pentreath, Mrs. Percy M. Liddell, Mrs. Clarence Darling, Mrs. Albert E. Leamy, Mrs. P. Keith Mackenzie, Mrs. Robert Smith, Miss Phyllis Darling, Mrs. Lionel E. Gussell, Mrs. Percy Gomersy, Mrs. R. M. Grant, Mrs. W. Darling, Miss Effie Johnson, Mrs. McKee, Mrs. Gordon Darling, Mrs. J. F. Belyce.

At St. At St. John's Church last evening the Rev. F. A. P. Coadwick, quietly solemnized the marriage of Jeannie, daughter of Mr. Sampson, of Norfolk, England, and Albert, son of William James Dickson, of Yorkshire, England. The bride, who entered the church on the arm of J. H. Bland, was accompanied by Mrs. Bland as matron of honor, while Harry Sutton supported the groom. After the ceremony the bridal party repaired to the home of Mr. and Mrs. Bland, where a delicious buffet supper was served. Mrs. Dickson's traveling dress was of green tweed, with which she wore a pale pink gossamer blouse and Paris model hat. Mr. and Mrs. Dickson will make their home at 110 First Street East, North Vancouver.

At "Breadalbane," the officiating minister's residence last evening, the Rev. Dr. Campbell celebrated the marriage of William Guthrie Fife, of Vancouver, and Miss Marjorie Ellen Pusey, of Victoria. The groomsmen was David F. Fife, of Marpole, the bridegroom's brother. The bride, who was given in marriage by her brother-in-law, wore her travelling suit and hat to match and was attended as bridesmaid by Miss Fife.

Mr. and Mrs. W. C. Shelly, of Vancouver, registered at the Empress hotel yesterday.

Mrs. E. Maitland Douglas, of Duncan, is a guest at the Empress hotel.

J. M. Nelson, of Calgary, is staying at the Empress hotel.

Mrs. Marpole, of Crofton, was in the city yesterday.

TO-DAY'S JEWELS

Diamonds are lucky to-day, since they are both the talismanic and natal stones presiding over mortal destiny on this date. Despite the fact that the diamond is hard, brilliant, and instantly sparkling, the ancients regarded it as an exceptionally sensitive stone, it is believed to show the guilt or innocence of one accused of any crime, since it grows dim before the presence of guilt. It also loses its fine lustre if the one who wears it sins, according to the quaint fancy of the Orient. Curiously enough, while a diamond brings its wearer all material benefits and prosperity, it is believed to make him unhappy, according to the great writer Cardano.

White is the hue prescribed for observance to-day. Worn by a woman, it will bring her the love she desires. The scarlet poinsettia is to-day's fortunate flower. It is a symbol of happiness.

HELD SALE OF WORK.

At the annual sale of work held by the Cathedral Girls' Women's Auxiliary in the Christ Church School-room yesterday a commendable sum of money was realized by the sale of a quantity of pretty and decorative oddities and useful articles that were exhibited in a variety of stalls. The stalls were in charge of a charming bevy of the W. A. under the leadership of Miss Still, and the selling was brisk. Miss Mitchell, Miss Mildred Chrow, Miss Booth and Mrs. Grant assisted in disposing of the large variety of beautiful articles that were made for the annual sale of work. Mrs. Mayhew, acting president of the organization, presided over the function, while the Rt. Rev. Bishop Schofield and Mrs. Schofield, Dean and Mrs. Quinlan were among the patrons of the sale of work.

A feature of the articles sold were the baskets of Dr. Turner, which sold out almost at the opening of the entertainment. A large doll, sent from England by Miss Turner, president of the W. A., proved to be one of the most interesting exhibits of the afternoon. The doll was made by a Russian refugee and dressed in the style of a Russian noblewoman of the imperial court.

POLICE FORCE ARE PERFECT HOSTS AT ANNUAL BALL

Some Fifteen Hundred Guests Danced at Willows Last Night

Under the happiest of auspices and to the accompaniment of a perfection of arrangements which left nothing to be desired, nearly fifteen hundred enthusiasts danced last evening in the main hall of the Agricultural Building at the Willows. The Victoria Police Force were the hosts and the beneficiary was the Police Mutual Benefit Association, which should be substantially augmented as a result of the affair.

For the past seven years the police have annually staged this ball for the benefit of the fund, and it has come to be acknowledged the most brilliant function of the year. No effort had been spared by the members of the force to ensure the success of the occasion and the perfection of the arrangements contributed materially to the enjoyment of the huge crowd of patrons.

Artistic Decorations.

Hundreds of flags, pennants, and quantities of bunting had been artistically used in the decoration of the hall with charming effect. Century Genets appeared as a feminine proper name, long before Jane, Joan, or Johanna were known to us. In the 14th and 15th Century, Genet made her appearance and by a process of evolution, there came Janeta, Janette and finally Janet, though the latter is by far the most modern form of the name.

History, which records innumerable instances of Janet and her derivatives being used with extreme popularity in those early times, likewise chronicle the amusing and almost unbelievable story of one William Richardson and his wife Christina who had a family of eighteen children and became so destitute for names for their extraordinary brood that they had two Johannes, two Wilhelms, two Christians, and three Janets. Strange to relate, this was not an unusual custom of duplication in those days.

Genida was an old Frankish form of Janet which was exceedingly popular. Indeed it is thought to be direct a forerunner as to be conclusive proof that Janet sprang from it and from Geneta—not form any form of John. Geneta is another early form that appears in old Frankish chronicles. Undoubtedly Janet was left behind in France and became confused with Jean, hence the erroneous modern belief that the two names are interchangeable. Like its offspring Jessie, Janet means "grace of the Lord."

Her talismanic stone is onyx, which, unless it has some mystic significance for the wearer as in this instance, should be avoided, since it cools the ardor of love, provokes discord and separates lovers. Worn by one who has a mystic right to it, a happy marriage is promised. Monday is Janet's lucky day and 6 her lucky number. An unforgettable poem was written by an early poet to "Janet."

"Your eyes had a swimming glory, Janetie,
Revealing the old dear story—my pet:
They were grey, with that chastened
tinge of the sky,
When the trout leaps quickest to seek
the fly,
And they matched with your golden
hair—my pet."

"Did I understand you to say that you didn't have any company in the kitchen when I was out, Kate?" "Yes, mum, that's what I said." "But I smell the tobacco from a pipe all through the house." "Yes, mum; the policeman was here for half an hour, mum; but we were in the drawing room."

Capable Committees.

An outstanding feature of all the police entertainments that was amply exemplified last night, was the smoothness and celerity of all arrangements, there being not a hitch in the entire proceedings. This degree of facile management is highly developed in the local force, which, by the aid of large and energetic committees attend to all the multifarious details in a manner that leaves nothing to chance. Great credit for the brilliant success of the entertainment is due to the following energetic committees which had worked so persistently to make the function the success it was: Reception—George Jay, Police Magistrate; J. M. Langley, Chief of Police; Thos. Palmer, Deputy Chief; G. M. Perdue, Detective Inspector H. J. O'Leary, Detective Sergeant; R. H. Walker, Desk Sergeant; M. Blackstock, Sergeant; Thos. Hall, Jailer; W. J. Harper, Constable; A. H. Bishop, Constable; J. H. Rogers, Constable; Mrs. Charles, Miss Bartholomew, detective service. Management—Driver W. Caldwell, Cons. J. McLellan, M. C. and Sec. Gualer G. Varney.

Refreshment—Sergeant R. H. Walker, Cons. T. Heatley and Management Committee. Floor—Detective Sergeant Carlow, Detective Heather, Detective Siciliano, Sergeant Boulton, M. C. C. Allen, Cons. F. Jones, Cons. Raine and Cons. Shakespeare. Cloak Room—Cons. Ireland, Cons. Cramer, Cons. Stark, Driver H. Jones and Cons. Driver, Mrs. Gillingham. Traffic—Cons. Littlefield, Cons. Wilkerson, Cons. Ferguson, Cons. Strang, Cons. Peck, Cons. Hutchinson. Auto Checkers—Cons. Aceman and Burnet. Card Room—Detective Phillips, Cons. Palmer and Cons. Walton. Ticket Sellers—Constables Bishop and Florence. Ticket Collectors—Constables Wood, McPherson, Clare and Larson.

HOLD BIG WORK SALE

Young Women of First Presbyterian Church Plan for Affair To-morrow

Everything from aprons and towels and fancy work, with all the latest crinkles, to home cooking, ice cream and afternoon tea is to be dispensed by the young women of the First Presbyterian Church at their sale of work in the schoolroom of the church Saturday afternoon.

JANET

Janet, sometimes spelt Janette, bears no relationship to Jane paradoxical as it may seem. As early as the 13th Century, Geneta appeared as a feminine proper name, long before Jane, Joan, or Johanna were known to us. In the 14th and 15th Century, Genet made her appearance and by a process of evolution, there came Janeta, Janette and finally Janet, though the latter is by far the most modern form of the name.

History, which records innumerable instances of Janet and her derivatives being used with extreme popularity in those early times, likewise chronicle the amusing and almost unbelievable story of one William Richardson and his wife Christina who had a family of eighteen children and became so destitute for names for their extraordinary brood that they had two Johannes, two Wilhelms, two Christians, and three Janets. Strange to relate, this was not an unusual custom of duplication in those days.

Genida was an old Frankish form of Janet which was exceedingly popular. Indeed it is thought to be direct a forerunner as to be conclusive proof that Janet sprang from it and from Geneta—not form any form of John. Geneta is another early form that appears in old Frankish chronicles. Undoubtedly Janet was left behind in France and became confused with Jean, hence the erroneous modern belief that the two names are interchangeable. Like its offspring Jessie, Janet means "grace of the Lord."

Her talismanic stone is onyx, which, unless it has some mystic significance for the wearer as in this instance, should be avoided, since it cools the ardor of love, provokes discord and separates lovers. Worn by one who has a mystic right to it, a happy marriage is promised. Monday is Janet's lucky day and 6 her lucky number. An unforgettable poem was written by an early poet to "Janet."

"Your eyes had a swimming glory, Janetie,
Revealing the old dear story—my pet:
They were grey, with that chastened
tinge of the sky,
When the trout leaps quickest to seek
the fly,
And they matched with your golden
hair—my pet."

"Did I understand you to say that you didn't have any company in the kitchen when I was out, Kate?" "Yes, mum, that's what I said." "But I smell the tobacco from a pipe all through the house." "Yes, mum; the policeman was here for half an hour, mum; but we were in the drawing room."

SOLICITORS' CLAIM

Order Sought for Payment of Charges in Bank of Montreal vs. Westholme Lumber Co.

The case of Bank of Montreal vs. Westholme Lumber Company, an outcome of the Victoria vs. Westholme litigation, was brought to the attention of Mr. Justice Macdonald in Supreme Court Chambers this morning when an application was made by W. A. Taylor, of Eberts & Taylor, for an order in reference to the solicitors' lien which, he claims, should attach anything which may be found to be due on the supplementary account, directed by the Privy Council, of the various orders made from time to time in the proceedings.

E. C. Meyers, counsel for the Bank, contended that the lien was subject to the floating charge which they held under their Trust Deed and made an offer to consent to Mr. Taylor having all his charges of conduct.

ing the case to the Privy Council paid out of anything found to be due on the final accounting. Mr. Brethour asked for adjournment to confer with Mr. Taylor in the matter, and the application was stood over until a week from Monday, when the matter will be heard in Vancouver.

CLASSES P. G. E. AS

COSTLY RAILWAY

F. A. Pauline Addresses Enthusiastic Gathering at Gordon Head

Addressing an attentive and large audience at the Gordon Head Hall last night, F. A. Pauline, Government candidate for Saanich, outlined his stand in the forthcoming election, and paid a very sincere tribute to the Oliver Administration.

The granting of provincial aid to municipalities was fully dealt with by the speaker, who explained why it had not been possible to accord that measure of suggested support before. He pointed out that if the Province did not have to pay out so large a part of its revenue for the payment of interest and maintenance of the Pacific Great Eastern Railway, the Government could remit more of the direct taxation levied to-day, back to the municipalities in which it was collected. This remittance could be applied to taxes such as the personal property tax, poll tax, and other sources of direct taxation, that was being paid out in the manner named.

"The heavy burden placed on the people of this Province by the late flower Government when it committed the Province to the building of this unprofitable and costly railway, is the reason why taxes have increased," stated Mr. Pauline. "The expanding revenue from natural resources, so ably administered by the Oliver Government, would make possible, I believe, a substantial assistance to the municipalities in the near future."

Mr. Pauline referred to the constructive legislation of the Oliver Government, and its intention to press forward the industrial development of this Province as rapidly as possible.

Mr. Pauline will speak again to-night at the Strawberry Vale Hall, when he will be assisted by J. B. Clearhue, Liberal candidate on the city Liberal ticket, the meeting to be opened at 8 p. m.

Ex-Councillor W. F. Somers occupied the chair.

MINERS IN MEXICO RESUME OPERATIONS

Mexico City, Nov. 19. — Mining properties in the state of Coahuila, which for several weeks have been under Government protection as a measure of safety during the strike of coal miners there, were returned to their owners yesterday. Workmen who desired to return were assured of ample protection and the owners received guarantees against disorders.

Reports from Coahuila have asserted that ninety per cent of the strikers desired to return to work.

CANADA MUST DEVELOP HER ASSETS

Citizenship Must Receive Some of Attention Lavished on Industry

MUST MAKE WORLD ONE BROTHERHOOD

In doing its part to make the world a brotherhood, Canada must give to the development of its vast human assets the same attention, care and some of the money which it lavishes upon the development of its vast natural resources. Charles W. Bishop, general secretary of the National Council of the Y. M. C. A., told a big meeting of the Canadian Club in the Empress Hotel at noon to-day. Mr. Bishop's eloquent address on the need of developing Canadian citizenship was heard not only by a considerable number of Canadian Club members but also by a large proportion of the teachers of the city and members of Women's Canadian Club.

To Make World Brotherhood. Mr. Bishop recalled in commencement that the Nineteenth Century, through the railways, steamboats and telegraphs had made the world a neighborhood. The duty of the Twentieth Century was to make the world a brotherhood, and if this was to be accomplished the Twentieth Century in its early years must be about that great work.

"We speak—sometimes lightly—of our human assets as our most priceless assets," he went on. "That idea, that acknowledgment, carries with it a tremendous responsibility—the duty of developing to the highest extent the institutions which will develop along the best lines our citizenship, our human assets. It is the eye of the great promoter who looks abroad and sees vast possibilities of development, and who carries that development out, that is needed to develop our great asset—our citizenship."

Great Human Promoters. "Sir Arthur Currie has become one of these great human promoters," the speaker declared, "amid applause. After his wonderful war record he has started his great work of developing our human resources. We trust that more of our public men of equal greatness will undertake this great national work—the development of our human assets."

Mr. Bishop also praised the work of Mr. Atkinson and Mr. Taylor, prominent boys' work leaders, as "those who have attempted to mine the gold in boyhood and who know how difficult it is to create practical organizations which will make boys of limited opportunities the serious liability instead of its most serious liability."

"In these men," he affirmed, "is found the genius which, in equal quantities, has made some of our citizens the richest and most powerful in the nation—genius if which applied to this end, would make these men, too, if they wished it, rich beyond measure."

Spirit of Family Needed. The vital need in the cities of Canada to-day, declared Mr. Bishop, was that sacred spirit which is found in the family circle and which, in a less degree, perhaps, should be spread over whole communities.

"Our chief concern to-day," he asserted, "is that which has to do with brotherhood." Mr. Bishop went on to draw striking comparison between a man who exemplifies the highest ideals of citizenship and the degraded criminal—the community's greatest asset and its worst liability. Processes were needed "to make the latter the former."

"We need in this country the same appreciation and realization of the blights which make our citizens serious liabilities as we have of those blights which, destroying our crops, cause us economic loss," he declared. "We take the utmost care to prevent blights, diseases from attacking our cattle—why cannot we do the same for our men and women, our boys and girls?"

"There are certain blights which to-day are leaving their trail on our human resources, which are the last thing we want to attack and which, while we leave them to wreak their wastage of human assets, make plati-tudes of our declarations that our boys and girls, our men and women, are our most valuable resources."

Men of Moral Strength. Pursuing this theme, Mr. Bishop declared that, in modern Canadian industry, the young men who were coming to the top, who were coming into control of big businesses, were the young men not only of intellectual breadth and mental ability, but moral strength as well.

"Capital stands impotent without personality," he asserted. "The worst thing that could happen to Canada—the thing that would send its stocks down lowest on the stock exchange—would be dishonesty and lack of personality on the part of the men who control her business. Big business, in grasping for the big men of the country, though it appreciates those men, does not realize its responsibility to the institutions which produced them—the home, the school, the university, the church, the fraternal organizations with which these men have been associated."

Mr. Bishop contrasted the remuneration of those who deal with the material resources of the country and those who developed its human assets. He admitted that this great discrepancy might be the plan of Providence, as altruistic work could best be accomplished by men and women not working alone for material gain, but he declared that big business "must, as a sacred trust, see that the remuneration of those men and women is not lacking."

"Surely we have passed the day of wasting our material resources," he concluded. "Surely we have reached the day when we shall find ourselves, not in our vast natural assets but upon the character of our manhood and womanhood."

Our ambition should be not only to develop our natural resources but to develop the highest qualities of the human mind so that we may in that

way, play our part in helping to make the world a brotherhood."

President Cochrane.

Introducing Mr. Bishop, John Cochrane, President of the Canadian Club, said in part:

"Amid the conflict of principles of government throughout the world in this period of reconstruction following the great war, there are two opposing banners unfurled, beneath whose folds are enlisted those forces which, on the one hand, would obliterate our present civilization, and on the other, will assist us to achieve the realization of our highest ideals."

The force antagonistic to our civilization is enlisted under the red flag of Bolshevism. "Opposing this malign and dangerous force is another world-wide influence, enlisted under the Red Triangle of Body, Mind and Spirit and fighting for those principles which, centuries of history have proved to be the vital essentials of human happiness, enlightenment, progress and prosperity."

"It is unnecessary to make extended reference to the beneficial effect of the activities of the Young Men's Christian Association upon the national life of our Dominion, our Empire, and the world at large."

"Suffice it to say that, during the late world war, this organization was unsurpassed by any similar agency in assisting to maintain military and civilian morale during the long struggle and to carry to a triumphant issue those high principles which received such ample vindication in that great conflict."

COMMITTEE ONLY TO GIVE OUT JOBS

False Stories Mislead Men Seeking Work on Reserve

Denial of the stories circulated by politicians for campaign purposes in connection with the employing of men for the Reserve development work which is to start next Tuesday, was given out this afternoon by the Hon. John Hart, Minister of Finance. Hon. Mr. Hart was not at the Parliament Buildings until this afternoon, but as soon as he found the condition of affairs he issued a statement.

This statement is to the effect that all returned soldiers seeking employment are to hand their names in to the secretaries of the various returned soldier organizations, along the lines of the plans announced yesterday. Married men and others seeking work are to make their applications to S. H. Creech, secretary of the Provincial Employment Bureau here.

J. D. McNiven, Deputy Minister of Labor, is making the arrangements with officers of the returned soldiers' organizations to handle the applications and the selections. "The large number of applications for work and the delay of A. F. Proctor, Chief Engineer of Railways, in returning to Victoria, selection of the names of the men to be employed will be made by Mr. McNiven, Mr. Proctor, Mr. Creech and the representatives of each returned soldier organization at 10 o'clock Monday. The men will be put to work Tuesday morning."

As the "whole business" has been turned over to Mr. McNiven and his associates exclusively, the rule barring politicians is strictly in force, Hon. Mr. Hart said.

MINISTRY OF LABOR

REPLIES TO MESSAGE

Wire From Ottawa to G.W. V.A. on Unemployment Veteran Situation

W. H. Thorp, Secretary of the Great War Veterans' Association here, received the following wire in connection with the Association's representations to the Ministry of Labor on the unemployment in Victoria:

"Your message re unemployment received and having minister's careful consideration. Minister assumes meantime those seeking work have not failed to utilize to full extent facilities of provincial employment service. Case of casualties unfitted for work should be presented to Victoria local officers of Soldiers' Civil Re-establishment Department and case of inadequate pensions to Victoria Local Officers' Pension Board. Minister will cause further inquiry into situation immediately and will meantime take matter up with his colleagues. Definite statement from you by mail giving detailed information as to precise number unemployed in different trades would be of assistance."

Signed: F. A. AGLAND, "Department of Minister of Labor."

In reply to this communication the Great War Veterans' Association have sent the following wire to the Ministry of Labor: "Services of Provincial Employment Bureau and After Care Department of S. C. R. utilized to fullest extent. Officials state unable to cope with situation. Local office of Pensions Board was closed months ago in spite of vigorous protests. All trades and crafts included among returned men unemployed."

The local office of the Pension Board was closed in May.

ADVERTISE IN THE TIMES

Oh! my back!

OUCH! HOW IT PAINS!

"OH, IT'S THERE!"
Right Across Small of the
Back or Over the Kidneys"
LUMBAGO, RHEUMATISM, GOUT,
SWOLLEN AND PAINFUL FEET
Due to Faulty Kidney Elimination

All signals of distress. The kidneys have too much work to perform. Uric acid accumulates in the system in the form of urate salts. Obtain at your nearest drug store that newest discovery of Dr. Pierce's, called "Anuric" (anti-uric-acid). "Anuric" is more potent than lithia and dissolves uric acid as hot water does sugar. The best kidney remedy known.

HAMILTON, ONT.—"As Dr. Pierce's Anuric Tablets have been such a wonderful help to me I want to tell others who suffer with kidney trouble. I have suffered with rheumatism for the last five years, and I have only taken three bottles of the Anuric Tablets and three bottles of Dr. Pierce's Golden Medical Discovery, and am nearly cured. I want to recommend Dr. Pierce's medicines to any sufferer with kidney trouble, or anyone run-down after having the flu."—Mrs. ESTELLA GRANT, No. 541 James Street, North.

CAPT. ORFORD AT TOLMIE SCHOOL

Soldier-Labor-Farmer
Candidate for Saanich in
Ward II.

Tolmie school was crowded to its utmost capacity, in spite of counter attractions in the shape of a social at St. Marks' Hall in the vicinity, to hear Capt. M. A. Orford, candidate for Saanich, speak on, and explain the Farmer-Soldier-Labor platform.

The first speaker was J. Dakers, one of the party candidates in the city. Mr. Dakers spoke at length on the Banking Act, Health and Unemployment Insurance Act, Poll Tax, Old Age Pension Act, Maternity Benefits and many other proposed statutes for the alleviation of the present most unsatisfactory conditions. H. S. Webb, who followed, said he complained about the faulty legislation, which had not been remedied by the late Government, and also said that Mr. Pauline's attitude in the House was one of sleepy indifference to the needs of the Province in this reconstruction period. The candidate spoke, reviewing at some length the criticisms levelled at the Soldier-Labor-Farmer platform by Mr. F. Pauline. The points covered by the candi-

date, Mr. Orford were: Development of the iron and steel industry such as shipbuilding, which could be brought about by a strong development of the vast provincial natural resources. Mr. Orford advocated a more comprehensive scheme of extended credits at lower interests to small farmers.

Water Power. Mr. Orford said "The Province is possessed of enormous water power. Legislation should be enacted providing that the governments, provincial and federal, should own, develop and operate all water power over which they have jurisdiction. The power thus generated should be supplied to all citizens at rates based on cost. The water power of the Province created by nature must not be permitted to pass into private hands for private exploitation. C. H. Lynch stated the present unemployment and lack of production was a great asset to the province."

SIXTEEN WOODSMEN DROWNED IN MAINE; LAUNCH BURNED

Bangor, Maine, Nov. 19.—Sixteen woodsmen were drowned in Chesuncook Lake, in the heart of the Maine lumbering district, late Wednesday afternoon, when a motorboat took fire. The men were being taken across the lake from Chesuncook Dam to Cuxabesia. Efforts to quench the fire failed, and the party became panic-stricken, and many leaped overboard, according to word brought here to-day.

BRIBER NARROWLY ESCAPES LONG TERM

Yue Yee Is Convicted of
Bribery and Fined
\$50

Yue Yee, a Chinaman, heard on remand to-day in the city police court, on a charge of attempting to bribe a police officer, was convicted of the offence, and fined \$50.

The full penalty of the law for attempting to bribe any police officer or other person in the execution of duty is fourteen years in gaol, but in this case, stated the court, such an imposition was not necessary, as the case could be amply met by a fine, whereupon the fine of \$50 was imposed on Yue Yee, to whom was explained the seriousness of the offence.

Sergeant Fry and Constable Harper had visited the premises of Yue Yee recently, and had found three bottles of Chinese whisky, the officers were called aside by the accused, who slipped a five dollar bill into the hands of Sergeant Fry. Counsel W. C. Moresby, who appeared for the accused, stated that his client had acted on the spur of the moment, and without thinking, and was very much frightened at the time by the arrival of the police officers. Magistrate Jay stated that he would have to record a conviction, and requested the interpreter Wang to tell the accused the seriousness of the offence.

OBITUARY RECORD

Private services were held yesterday at 3 o'clock at the B. C. Funeral Chapel for the late Miss Mary Walker, the Rev. S. Cook conducting the service. The hymns sung were "Jesus Lover of My Soul" and "Rock of Ages." The casket was hidden beneath a wealth of lovely floral tributes. Interment was made at Ross Bay Cemetery. The pallbearers were Messrs. J. W. Walker, P. H. Quinn, W. D. Carter, and R. W. Curran.

The funeral of Margaret Ellen Blue, the five months' old daughter of Mr. and Mrs. Dugal Blue, took place yesterday afternoon at two o'clock from the Sands Funeral Chapel, relatives and numerous friends were in attendance and the little casket was covered with many beautiful flowers. Rev. Dr. Campbell officiated and interment took place at Ross Bay Cemetery.

The funeral of Mrs. Fanny Butler took place from the B. C. Funeral Chapel yesterday afternoon, proceeding to the residence at Keating. At St. Stephen's Church, South Saanich, an impressive service was conducted before a large congregation of friends, including many old timers of the district, by the Rev. J. S. Archibald. Two hymns were rendered, "Rock of Ages" and "Abide With Me." Interment was made in St. Stephen's Cemetery. A large and beautiful offering of wreaths and sprays and other floral designs covered the casket and hearse. The pallbearers were: J. W. Sluggert, R. W. Sluggert, A. Thomson, W. Thomson, H. Tanner and J. L. Brooks.

The remains of the late William Atkins were laid to rest in Ross Bay Cemetery yesterday afternoon, service being held in the B. C. Funeral Chapel at 2 p. m. Rev. W. Baughman officiating. A large number of friends were in attendance. Two hymns were rendered, "Abide With Me" and "Oh God, Our Help in Ages Past." Many floral tributes covered the casket and hearse. The following acted as pallbearers: John Day, E. Conway, James Bbister, David Isbister, and Ralph Stevens and Robert Foster representing Yarrow, Ltd.

500 REDS TO BE DEPORTED FROM U.S.

Washington, Nov. 19.—More than 500 Russian radicals remain to be deported from the United States, it was said to-day at the Department of Labor. All except forty of these are at liberty on bail. The others are held at Deer Island, Boston, and Ellis Island, New York, as they are regarded as too dangerous to be allowed at large.

OPEN TO PUBLIC

Geneva, Nov. 19.—Lord Robert Cecil and Hjalmar Branting, at the first meeting of the League Assembly Committee on disarmament, economic blockade and mandates yesterday, put through a motion that the session of the committee, Friday, would be open to the public, thus putting to rest the attitude left by assembly for the holding of the committee deliberations behind closed doors or not. Much curiosity is evidenced here whether the example will be followed by other committees.

NOT THE COAL WE KNOW.

Do you know there exists such things as an island of coal, coal-fish, coal-seeds, coal-worts, coal-tits, and coal-mice?

The Isle of Coal, or Coll, or Col—whatever you like—consists of one large rock in the Hebrides, the Western Isles of Scotland. Its surface is covered with a layer of earth, so thin as to admit of but little cultivation. It is about thirteen miles long by three miles wide, and belongs to Argyllshire.

Coal-fish are a species of cod, so named from the color of their backs, and they abound around the Orkneys. The coal-perch is a small species of the common perch.

Coal-worts are a species of cabbage, which grow wild on the sea coast, sometimes called kail. Coal-seeds, like the foregoing, have nothing in common with coal. They grow on waste grounds, in cornfields, or anywhere, are a kind of cabbage, and are used in the manufacture of soap.

Coal-tits are small birds of Scotland, with black heads, while coal-mice are small, black-headed titmice. —Answers.

IGNORANCE IS BLISS.

One-half of the world envies the other half because it doesn't know how it lives.

Your Nearest Doctor

for dealing with any skin sore or injury is found in Zam-Buk. "A Surgery in a Two-Inch Box." At home and abroad it is the healer that ends pain and irritation, prevents festering and blood-poison, drives disease from the tissues, and promotes quick healthy healing. Keeping Zam-Buk always handy ensures you and the family against skin troubles. With it you're prepared for any emergency.

Mrs. J. Rancall, of Silver Stream, Sask., writes:—"Here is an incident which proves conclusively Zam-Buk's wonderful healing power. One day my daughter when using the washing machine, tore the top off her finger. As we live eighteen miles from a doctor, I got out the Zam-Buk (which we always keep handy) put on a liberal dressing and bound up the finger carefully. The injury gave no further trouble. The use of Zam-Buk made it unnecessary for us to trouble a doctor for in wonderfully short time, the wound healed completely."

Zam-Buk is equally good for burns, scalds, eczema, ulcers, cold sores, scalp disease, insect bites, etc. Name of user and address to Zam-Buk Co., 1000 Dupont Street Toronto, brings Free Trial Box.

WILSON REPLIES TO LEAGUE ASSEMBLY

Geneva, Nov. 19.—At the opening of to-day's session of the Assembly of the League of Nations, President Wilson, read a reply from President Wilson to a message sent to Washington by the Assembly on Monday.

DIED IN ARIZONA.

Tacoma, Nov. 19.—William C. Wheeler, president of the Wheeler-Osgood Company, died in Tucson, Ariz., yesterday. He was prominently identified with the lumber business of the northwest for thirty-one years, coming here from Dubuque, Ia., where he was a lumber man for twenty-one years. Born in 1841, Mr. Wheeler served in the Civil War. He had been ill for fifteen months and was in Arizona for his health.

OPIMUM VALUED AT \$1,000,000 SEIZED

Greatest Seizure in History
of Philippines Made on
Cebu Island

Manila, Nov. 19.—The largest seizure of opium in the history of the Philippines was made by customs officials Tuesday at Hinutangan Island, near Talisay, Cebu. It was announced here to-day. This is the second opium seizure within a week in the Cebu district in investigation of what customs officials declare to be smuggling operations carried on by a wealthy syndicate with ramifications from China to Borneo.

Tuesday's confiscation consisted of 8,300 tins of choice grade Hongkong opium valued at \$1,000,000. The drug was found in sealed petroleum cans, which probably had been dropped from a steamship and brought ashore in a launch.

SAYS CANADIANS OUTBID AMERICANS

New York Herald Deals With
Wheat; British and
Others Gaining

New York, Nov. 19.—(Canadian Press)—The Herald, in an editorial to-day, says that the United States is being outbid in all parts of the world by Canada, England, Germany, Holland, Japan and other countries because the wage scales in the United States are too high and labor efficiency too low. The newspaper says that the United States must either haul down its excessive labor costs or surrender its export business. The newspaper blames the same conditions for the inability of the United States farmers to compete with the Canadians in both the domestic and foreign wheat markets.

In Their Own Market. Concluding, The Herald says: "Right at this minute Canada is

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

Contains No Alum

Made in Canada

not only underselling us on wheat in European markets, but underselling us on wheat here in our home market. The American farmer says, and says truly, that the labor costs of his 1920 crop of wheat are so heavy that he cannot sell his wheat under \$2 a bushel and make a profit. But the man who is buying wheat is not thinking about sellers' profits. He is thinking about his wheat on the best terms he can make. When he can buy Canadian wheat in the Chicago market for \$1.85 he isn't going to pay anybody else \$1.86.

In any intensely competitive field, farmer or miner, manufacturer or merchant must equal or better his rival's price with the same quality of goods or quit."

RAILROAD BOARD TO
HEAR ARGUMENTS

Ottawa, Nov. 19.—(Canadian Press)—The Board of Railway Commission-

ers definitely announced this morning that the resumed hearing of the freight rates case on Monday will be confined to the application made by H. J. Symington, counsel for the gov-

ernment of Manitoba, for a suspension of the rates. Reports that other matters will be taken up are stated to be erroneous.

Lever Brothers Limited, Toronto

ADVERTISE IN THE TIMES

BRIEF LOCALS

Governor's Condition the Same.—The condition of Colocet Hon. E. G. Eriq, the Lieutenant Governor, is much the same to-day as yesterday, his physician, Dr. Wasson, stated this afternoon.

Bible Conference.—The largest audience listened to Dr. D. D. Munro's unfolding of the Epistle to the Philippians, last evening. On Sunday Dr. Munro will close the conference, preaching three times. In the forenoon he will speak on "The Stone Cut Out of the Mountain without hands." At 3:30 p.m. the subject will be "The Rehabilitation of Israel," while at 7:30 p.m. the last conference message will be given, "The Unavoidable Christ."

Concert at Shelbourne Street.—The young people of the Salvation Army gave a very successful concert at the Shelbourne Street Hall on Wednesday evening. The programme consisted of local and instrumental solos, dialogues and selections by the hands of a spate of adverse weather conditions, a large and appreciative audience filled the hall. The friends of Shelbourne Street Hall wish to express their thanks to all who helped to make the concert such a success.

Veterans of France.—At the bi-monthly meeting of the Veterans of France held in the clubrooms last night four new members were admitted. The action of the executive was endorsed with regard to his objection to the closing of Esquimaux Hospital. The Navy League wrote, asking for support of the campaign fund by attendance at the forthcoming opera, "Yeomen of the Guard." Most of the evening was taken up in a revision of the by-laws. Comrade Moody was appointed chairman of the sick committee.

Lecture on Planets.—The movement of the planets in their orbits around the sun, was made the subject of a lecture delivered last night by Napier Denison, Dominion Meteorologist, to the senior classes of the Y. M. C. A. The speaker brought the Orrery, a clever series of mechanical movements, invented by Lord Orrery, to exemplify this movement. The lecturer styled his address "The Sun and His Family," and treated his subject with a clarity and conciseness that appealed with emphasis to his youthful hearers.

Expend Big Sums for Milk.—The expenditure of from \$100 to \$125 monthly on milk for the children of necessitous families is making a big drain on the resources of the milk fund of the Dr. O. M. Jones Chapter, I. O. D. E. and at the meeting of Tuesday evening plans were made for a tea and sale of work to augment the fund. This will be held at the Jubilee Nurses Home on Saturday, November 27, to be followed in the evening by an informal dance. The regent presided at the meeting and there was a good attendance. Mrs. Chislett, Mrs. Hall, Mrs. Morsey, the Misses E. and H. O'Brien, were welcomed as newcomers. A donation of \$10 was voted to the I. O. D. E. Christmas tree. At the close of the meeting refreshments were served.

To Be Provincial Organization.—Asked by their Dominion executive whether they would as a group prefer to remain an island organization or to be part of a Provincial Association, the Victoria Girl Guides, in a session last night decided that they would elect to be part of a British Columbia organization of Girl Guides. The Toronto headquarters is to be notified to that effect. Mrs. Tyrell Godman has taken over the leadership of the James Bay company, being introduced to the meeting last night by Mrs. Griffiths. Miss Unwin, secretary, who has for the past four months been in England, was welcomed back yesterday to the local association. Miss (Captain) Leighton Guide Mistress, read an interesting report of work achieved, and Mrs. B. G. Goward gave an address on the work of the "Brownies."

British Empire Relief Fund.—The chairman, P. F. Curtis, and P. Landsberg, secretary of the British Empire Relief Fund Organization, and Miss A. E. Windsor, who is touring Canada to assist in raising funds for the starving, ragged and parentless children of Central Europe, waited on the executive of the Ministerial Association at a meeting which was held in the library of the Presbyterian Church at 2 p.m. Miss Windsor, who has recently returned from the war-stricken area of Central Europe, spoke at length and explained the terrible conditions of the children who are the cause of the executive's action. The local committee, and by a resolution authorized the secretary to circulate every clergyman in the vicinity to make a special appeal to the generosity of the citizens of Victoria to assist financially and also to the Sunday school teachers to bring this appeal to the notice of the youth of the city.

Medical Society, Meets.—At the general meeting of the Medical Society held last night at the Provincial Royal Jubilee Hospital Dr. Rupert Hallam, a member of the Imperial Commission for Combating Venereal Diseases, and Dr. Gordon Bates, general secretary of the Canadian National Council, were the special guests, and addressed the members.

Mail Stopped in Vancouver.—The delay in the Vancouver mail recently, which was reported to have been attributed to a delay here, has been ascertained to have occurred following the break-down of a mail chute at the Hotel Vancouver. A great deal of the mail for Victoria is handled in chutes at the Hotel Vancouver, and the breakdown of one of these chutes delayed the local distribution.

Generous Donations.—The Board of Management of the Protestant Orphan's Home wish to express their sincere thanks for a generous donation of \$100, received from the Queen City Chapter, No. 5, Order of the Eastern Star. The Home is entirely dependent for maintenance upon voluntary contributions, and such a generous and unsolicited gift is very much appreciated.

Form Island Council.—A meeting was held yesterday afternoon for the purpose of organizing a provincial council for the combating of venereal disease. The meeting constituted itself the nucleus of an Island Council, and the following were appointed an executive committee to take charge of arranging a programme and approaching the various organizations with a view to getting their representation on the organization: Dr. Miller, Mrs. Schofield, Miss Cressie, Dr. Price, H. Charlesworth, Mr. Ravenhill, Rev. J. G. Inkster, Mr. Ellis, representing the Trades and Labor Council, and representatives of the Kiwanis and Rotary Clubs.

Dresses in Japan are frequently sold by weight.

Another Great Piano Sold Exclusively by Fletcher Bros.

It is with pleasure that we announce that the famous Haines Bros. Pianos will be sold in Victoria exclusively by Fletcher Bros.

HAINES BROS. PIANOS

have been recognized as instruments of sterling quality for nearly sixty years. Their fame is international, and the most celebrated artists of modern times adorn with their names the honor roll of those who have written and spoken of the beauty of the Haines Bros. Piano.

"Why Does Victoria Need Chamber of Commerce?"

A large number of men are interested in the new Victoria Chamber of Commerce. They are well disposed towards it. They want to see it go. But deep down in their hearts they are sceptical. They are asking themselves:

"Why does Victoria need a Chamber of Commerce?"

"What can this Chamber of Commerce do for Victoria?"

"Who is going to run the Chamber of Commerce?"

"How is the Victoria Chamber of Commerce going to be financed?"

"Is the Chamber of Commerce going to be permanent?"

Through the courtesy of The Times, these five questions will be discussed, one each day, in these columns.

To-day's question, the second in the series of articles on the working of the modern Chamber of Commerce, which Victoria is building, is: "What can the Chamber of Commerce do for Victoria?"

It can do anything upon which the thought and energy of the community have been centred as needful to be done. What it will do, depends entirely upon the membership. Every member will have an equal voice in saying what it should do, and the doing of these things will then become a matter of uniting the whole organization to that end.

Putting the question in another way, suppose it is asked "Who is going to say what the Chamber of Commerce is going to do?"

The president? No. The directors? No. The committees? No. The members? Yes, absolutely.

The manner in which the members will do this is one of the most important features of the re-organized and expanded Board of Trade, a feature on which is based one of the chief appeals for the support and co-operation of men and women of Victoria.

In a word, it is a referendum. Immediately after the completion of the intensive membership campaign, a card will be mailed to each member, asking him two questions.

Two questions.

1. What as a citizen do you think is the thing of first importance for the Chamber of Commerce to undertake for the good of the city of Victoria?

What, in your opinion, is one of the first things that should be undertaken by the Chamber of Commerce to improve conditions and opportunities in your own line of business?

In securing answers to these two questions, reliance will not be placed wholly on mail replies. Group meetings will be held to obtain from every member a candid and earnest expression of opinion or suggestion. When all the members have expressed their preferences, the filled-in cards are all sorted out, like answers to a questionnaire, it will be found, no matter how large the membership, that the community is thinking along lines of service that are very definitely crystallized under seven, eight or ten or probably more headings. Some of these piles of sorted cards will stack up much higher than the rest, and from the answers on these cards the programme of work for the Chamber of Commerce to undertake will be formed.

Build Up Programme.

It has been the experience in many other cities that the answers to these two questions, although coming from from 400 to 5000 members, classify themselves under a comparatively few important headings. These subjects, thus broadly defined, represent, as decided by the whole of the membership, the plans in the platform of the organization. It is clearly seen here that to the programme of work as thus developed, the whole membership is pledged and it is the duty of the officers and directors and of the special committees, when appointed, to concentrate their whole effort to carrying this popular programme forward. The programme, sometimes covers activities for a period of from two or three to five, six or even ten years.

Having learned the interests of the individual members, it is possible for the directors to call into committee service, the men who are vitally interested in certain projects.

The signed answers to the questions, when discussed, who are the men most interested in various matters, by putting such men on special project committees, the directors insure careful study of the projects and their completion by the most interested groups of citizens. It is quite evident that real accomplishments will

THE VALLEY OF TEN THOUSAND ACRES

In The Island of November the valleys of ENGLISH-MAN'S RIVER and FRENCH CREEK in the NANOOSE and CAMERON DISTRICTS are thus described:

TEN THOUSAND ACRES OF ARABLE FRUIT OR POULTRY LANDS

We have EXAMINED, SURVEYED, SUBDIVIDED into TRACTS of from TEN to FORTY ACRES and BUILT ROADS through the VALLEY OF TEN THOUSAND ACRES.

result from this method of building a programme of work, and from this procedure in selecting committees. How much better this is than the old Board of Trade method of putting a disinterested man on a committee, as a bit of flattery to him. They were "standing" committees in more ways than one.

Interesting Individuals.

It is by giving the individual member the opportunity to work on the thing he is particularly anxious to have done that the whole membership is kept alive and active.

An important plank no doubt will be publicity for Victoria. It is the adoption of methods to advertise the city, its attractions and opportunities, widely, and to create and maintain a favorable opinion toward the city throughout the whole continent.

To-morrow "Who is going to run the Chamber of Commerce?"

DON'T HAVE COLD FEET.

Sedentary workers have the advantage of working in the dry, but against that must be put the disadvantage that in winter their inactive work means cold feet. This is a trouble that can be cured.

The first step, obviously, is to make one's boots damp proof. That is best done by painting the soles, when quite dry, with a coating of oak copal varnish. The leather absorbs this, and not only does the varnish keep out the damp, but in inferior leather is vastly improved.

When the first varnish coat has dried, apply another. The double coat will last for about six weeks, and then the soles should be treated again. The copal varnish, by the way, is not expensive; most oil and color shops sell it.

Inside warmth, too, can be created. Cut to shape brown-paper socks, two for each foot, and sew them together with a small, close stitch after a small quantity of dry mustard has been spread over them. Insert the socks carefully over the boots, and then put the latter on. Within a few minutes you will feel a tingling warmth. The mustard is acting.

As the feet of some are more tender than those of others, the amount of mustard required varies. It is better to begin with a little, and add to it if required.

Then, as a final touch, to prevent the "damp" from blowing down into the feet, get some cotton wool, shorn to the thickness of a smudge, and of a length that will just go round the leg above the ankle, and put it for hours over the sock, and stock an inch below the top of the

boot, and—for shoes—under the sock as near the top of the shoe as possible.

Lady Astor told in London a story about an anti-suffragist.

"Anti-suffragists are all alike," she said. "Once I was canvassing for signature to a petition about Lord Milner the viceroy to India at that time. When I called on Mr. Boggs the grocer, he read the petition carefully and then said:

"Who is this here Milner ma'am?"

"Our India viceroy," said I.

"What's a viceroy?" said Mr. Boggs.

"A pro-consul you know. And explained Lord Milner's position in detail.

"Mr. Boggs satisfied dipped his pen in the ink, then he looked up anxiously.

"You're not lettin' the women sign this are you?" he said.

"Oh no indeed!" said I.

"That's right," said Mr. Boggs as he slowly traced his signature. "That's right ma'am. Women don't know nothin' about these things."

Meeting Postponed.—The Esquimaux Parent-Teachers Association, which was to have held a meeting in the Lamson Street School at 8 o'clock this evening, has decided to adjourn its meeting until next Friday evening at the same hour.

Shorter.—How the dickens do you know which twin you've engaged to? I can't tell the difference. Long-hair—Nor can I, old man; that's what makes it so rightfully interesting, don't you know?"

Patrick Ready to Prove Ten Players in Alberta "Big Four" Took Money

Frank Patrick Explodes Another Bomb In Amateur Hockey Circles; Posts \$1,000 Cheque That He Can Prove Charges If Judicial Inquiry Is Ordered; Show Down Must Come Now.

Vancouver, Nov. 19.—Frank Patrick, President of the Pacific Coast Hockey Association, today exploded another bomb in the Alberta "Big Four" camp. "It's up to Patrick to make the next move," declared Calgary interests when the Attorney-General of Alberta and the Alberta governors of the A. A. U. of C. flatly refused to investigate Patrick's charges of professionalism filed against the amateur league of the prairie province. To-day the coast magnate made his move.

Enclosed in a letter addressed to The Calgary Herald is a cheque for \$1,000 which the coast man instructs the publishers to turn over to any charitable institution in Alberta if he fails to substantiate charges that at least ten players received money for their services in the Alberta amateur league last season. The only stipulations Patrick makes are that the investigation must be conducted along the lines of a judicial enquiry, evidence taken under oath and that the investigation must start before December 5.

Patrick's Letter.

In a written statement Patrick says:

"I have received a letter from the Attorney-General of Alberta, in which he states that he does not propose to take any action on the charges that I made to him concerning the operations of the Big Four Hockey League. I doubt if he realizes that this is a matter of serious public import. He makes the astounding deduction that I am interested from selfish motives when my letter clearly intimates that that is the only reason I advance. I am free to state that my motive is self protection and essentially selfish and at the same time I am acting for an Association that has in the past furnished thrilling sport to thousands of coast people and which expects to continue to do so irrespective of any activities of Alberta hockey officials.

Papers Want Investigation.
"Both Calgary newspapers have in their editorial columns supported the idea of a proper investigation and clean-up of the whole situation. Hence my letter to one of them urging them to press for a judicial investigation, the only kind that would have a legal status. I am of the opinion that the Attorney-General, although far from being in a receptive state of mind, might be prevailed upon to act if proper representation emanating from within the Province of Alberta, is made to him. He resents outside meddling and states the affairs of the Province are in excellent hands, namely, his own.

"The statement in the Calgary press that the board of governors of Alberta Amateur Union have gone on record that they are agreeable to and are willing to conduct an investigation under oath without the au-

STAR GOALIE SIGNS TO GUARD NETS HERE

"HECK" FOWLER

Who will play goal with the Aristocrats this season.

thority of the Attorney-General of Alberta.

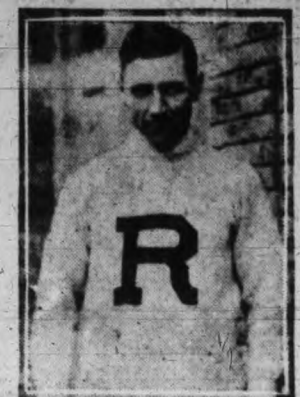

"My letter to The Calgary Herald is to show my good faith by backing up my charges to the extent of one thousand dollars. Should I be wrong some Alberta institution will benefit. If I am right then a bad situation will have been cleared up."

LOCAL BADMINTON CLUB WILL PLAY VANCOUVER

An interesting match has been arranged between the Vancouver Badminton Club and the Garrison Badminton Club, of Victoria, to take place at the new Drill Hall, Bay Street, to-morrow. Play will commence at 5 p. m., and the ladies of the club are kindly providing tea at 4.30 p. m. There will be no entrance fee to watch the play, and two courts will be available for ordinary games. The teams will be as follows:

Vancouver	Victoria
Miss George	Miss Lawson
Mrs. Partington	Miss Parkyn
Miss Minchin	Miss Pitts
Mrs. Forsyth	Miss C. Grey
M. Cowan	Major Cobbett
G. H. Gorges	F. C. Belton
H. R. Partington	Major Hendy
J. D. Forsyth	G. H. Meredith

HOCKEY REFEREE OUT FROM FROZEN NORTH

MIKEY ION

Seattle, Wash., Nov. 19.—Mickey Ion, king of hockey referees, set foot on Seattle soil yesterday after one of the most exciting trips in his life. Ion was in the Tanana district, Alaska, acting as storekeeper for the big trading concerns in the North, but missed the last boat out and was forced to mush it to Cordova. He took 250 miles of it, only foot, but picked up auto and dog rides the remainder of the way to transportation to the outside.

In fording a river on his journey, Ion and several of his party were nearly wiped out by a huge ice jam riding on the crest of the waves. It was a nip-and-tuck battle for the shore, and Mickey made it, but had to pull some of his companions out of the water, so close was the shave.

LADY SHOTS DO WELL ON MINIATURE RANGE

Miss Richardson Tied Score Made By Best Man Shot Last Night

The Canadian Scottish Indoor Rifle Club held the regular weekly shoot last evening. Miss D. R. Richardson won the silver spoon in the ladies' class with scores of 98 and 97, total 195, out of possible 200.

Sgt. Major Woods won the spoon in the men's section with 195 also. Another lady joined the ladies' section last evening and if the first attempt is a criterion the lady is due to win premier honors very soon. Miss Letty Woods proved to be an adept after first instruction, making the fine score of 93 out of possible 100. Miss Dover is also making rapid strides. Each week she has made an advance. The winner has to allow a handicap of five points for each spoon won, so that the next contest will probably produce a surprise.

The Results.

Last night's results were as follows:

Ladies' section—	
Miss D. R. Richardson	98
Miss Dover	97
Miss L. Woods	93
Mrs. M. Case	86
Men's section—	
Sgt. Burton	95
Sgt. Maj. Woods	95
Maj. F. Richardson	95
Maj. Kennedy	95
Cpl. F. V. Richardson	90
Lieut. Henson	90
Mr. Dodsworth	86

Any Golfer Who Thinks He Plays Bad Game Need Never Worry After Reading This

Here's an account of the "greatest" golf game ever recorded. There may have been more humorous matches played but no one ever had the nerve to record them. This one comes all the way from India and appeared in The Empire, of Calcutta. If anyone knows of a game equal to this they are invited to send an account of it to The Times. Here is the story of the game in India:

"A match which aroused great local interest was played at Tollymore, during last week, the players in question representing the maximum handicaps of their respective teams. The weather was hot and dry, but a large gallery, in the same condition, assembled to witness the match. At the first hole, 355 yards, Mr. Manall led off with a low, bumping shot to within 350 yards of the pin. Mr. Clare drove to the edge of the tee. Twenty minutes afterward, the hole was halved in 14. Mr. Clare took the lead in the third, Mr. Manall having just missed a putt of an inch. At the next, the short hole, Mr. Manall struck his seventh into the nullah, and, taking ten to get out, became two down, his opponent having holed out in a lucky 15. With his drive at the sixth, Mr. Manall struck a spectator who had stupidly been standing at right angles to the tee. On the eighth green, Mr. Clare skied his putt and lost the hole. A mechanical eleven followed, and Mr. Clare turned one up. At the tenth, playing a determined game, Mr. Manall smashed his brassie. At the eleventh, Mr. Clare drove a divot 150 yards. Approaching from the edge of the thirteenth green, Mr. Clare made the longest shot of the match. At the fourteenth, Mr. Clare sent a dozen "Professionals" before clearing the tank. Mr. Clare, who went round by the bamboo, winning in 18. The long hole was halved in a strenuous 25. Late in the day, Mr. Manall drove into the last bunker on the course, Mr. Clare following with the like. Here, for the next half hour, play was of an even nature. Then Mr. Manall sent for a new niblick. After the landslip the Umpire decided to postpone the match, and declared an interval, while the competitors, in company with the few still undefeated spectators, inspected the nineteenth hole."

FAMOUS DOG DERBY IS SET FOR MARCH

The Pas, Man., Nov. 19.—(Canadian Press)—The 1921 Hudson Bay dog

derby will be run on Tuesday, March 1, for a purse of \$2,500. The distance will be 200 miles this year, the course to be from The Pas to Flin Flin and return.

The race is open to the world for any number of dogs to a team and any type of sledge, derby rules to govern. Len Seppala, the record holder of the Alaska Sweepstakes, has advised the executives that he will compete with others in Alaska in a communication with officials here.

BOB BROWN STILL WANTS FRANCHISE IN COAST LEAGUE

Seattle, Nov. 19.—"Can't say whether we will break into the Coast League or not," said R. P. Brown, president of the Vancouver Pacific International Baseball Club, who was in Seattle to-day on his way home by the bamboo, winning in 18. The long hole was halved in a strenuous 25. Late in the day, Mr. Manall drove into the last bunker on the course, Mr. Clare following with the like. Here, for the next half hour, play was of an even nature. Then Mr. Manall sent for a new niblick. After the landslip the Umpire decided to postpone the match, and declared an interval, while the competitors, in company with the few still undefeated spectators, inspected the nineteenth hole."

Brown admitted that he had been "kicking up" the matter at Kansas City, but said that nothing definite had been decided. Vancouver business men are anxious to obtain a Coast League franchise, he said.

BOB MARTIN MATCHED WITH CAPTAIN ROOPER

BOSTON, Nov. 19.—Bob Martin, heavyweight boxing champion of the American Expeditionary Forces, has been matched with Captain Bob Rooper of Chicago, for a ten round bout to a decision here next Wednesday.

WELTERWEIGHT CHAMP HAS BEST OF FIGHT

Kansas City, Nov. 19.—Jack Britton, champion welterweight boxer, won the newspaper decision over Morris Lux, of Kansas City in a ten-round, no-decision bout last night.

Victoria and Vancouver Ready for Great Match

First Game For McKechnie Cup To-morrow Promises To Draw Huge Crowd; Local Players Are In Top Form and Have No Doubt of Outcome; Vancouver Expects to Win.

Rugby fans are all primed for a great time to-morrow afternoon at Oak Bay park, when the Victoria and Vancouver "rep" teams face one another in the first game of the series for the McKechnie Cup. With fair weather it is expected that the crowd of spectators will far exceed all past records for attendance at these games. But whether the sun shines or the clouds pour down their heaviest showers the players will chase the pigskin about the field striving for the initial advantage in the big series. The kick-off will be at 2.45 o'clock. The field of play has been roped off so that spectators cannot crowd over the lines.

FOUR WILL FLOAT IN WESTS-METS MATCH

Big Crowd Expected at Thrilling Battle Between Soccer League Leaders

To-morrow's soccer card will be the best that the fans have had dished up to them for some time, and no doubt there will be large crowds on the side-lines. There will be plenty of speed and excitement and there will more than likely be a great change in the league standing over the week-end. The draw brings together the league leaders and each following pair in the standing.

Chief interest centres in the clash between the Metropolitans and Victoria Wests at the Royal Athletic Park. In order to keep in the race and have a chance to capture the city honors the Mets must win to-morrow. Up till last Saturday they were running tie with the Wests, but the victory by the G. W. V. A. showed them down two points. The Wests are anxious to turn in a win and it will square them away well for the championship. Both teams will be at full strength. Double side-lines will be marked off to prevent spectators from encroaching on the field of play. An admission fee will also be charged. Ladies and boys will be admitted free.

Second Game.

The second game of importance will be between Yarrows, who are in third place, and the G. W. V. A., who follow in the fourth berth. Yarrows are still contenders for the city honors but must win to-morrow if they wish to stay in the race. The Vets, encouraged by their win last week, are anxious to take the shipbuilders into camp.

The Card.

To-morrow's soccer card is as follows:

Senior League.

Victoria West vs. Metropolis, at Royal Athletic Park. Referee, Payne. Sons of England vs. Comrades, at Central Park. Referee, Dougan. G. W. V. A. vs. Yarrows, at Beacon Hill, lower ground. Referee, Jasper. Victoria Wests-Shandley; Whyte and Copas. Baker, S. Sherritt and Allen; J. Sherritt, Plump, Feden, Muir and Mulcahy.

Sons of England—Finnigan; Locke and Greig. Thomas, Windmill, and Tupman; F. Kerley, Cosier, A. Kerley, Walters and Attwell. Reserves, Davidson and Oliver.

Yarrows—Bridges; Mesher and Fanthorpe; Charman, Roe and Gunn; Bridges, Merfield, Davis, Swann and Watt.

Intermediate League.

Firemen vs. Garrison, at Beacon Hill, upper ground. Referee, McEwan. (This is the unplayed game of last week, November 13). All games are scheduled to start at 2.45 p. m. sharp.

Firemen—Laffin; Coloumbin and H. Turner; Taylor, Ferris and Hopkins; Gardier, Newman, Lynn, Gwyer and Moulton. Reserve, Saville.

There are 440 cars in daily service on the London Underground Railway, an increase of forty compared with last year.

game with the famous "Redruth" fifteen. He played one season with the Victoria Welsh Club before going overseas.

Drummond and Stewart.

Drummond and Stewart are two new faces. Stewart is working the base of the scrum and although a veteran, is able to set a pace that few youngsters can keep up with. He played for the West of Scotland. Drummond, another Scottish player, is a forward weighing nearly 200 pounds. He is probably one of the best forwards seen in action in this city for some time.

Herman and Grubb.

Another newcomer is Frank Herman. He is a forward, very heavy and fast. He learned the game at Dulwich College. He soon found a place in the Blackheath pack. He is at present one of the mainstays of the Cardinals.

Grubb is probably the most spectacular of the local boys. He has improved every year and is no doubt one of the cleverest and hardest workers in the city. He would be an acquisition to any first class team in Great Britain to-day.

Errol Gillespie and Harold Wilson are products of that famous rugby school Loretto, Edinburgh, although born here and obtaining preparatory knowledge of the game at the University School, they put on the finishing touches in Scotland.

Eric McCallum, who was one of the famous law students team in Victoria, is another veteran of the rep. team. He is one of the most useful men of the side. Although playing forward he can be used in the back and possesses great pace and kicking ability.

The Matson Boys.

The Matson boys, Jack and Tim, also are local products. Both learned their rugby at the University School. Jack is playing wing three-quarter, and if fed is a prolific scorer. He has great speed and can kick with either foot. Tim is the smallest man on the team, but what he lacks in size he makes up in other qualities. It is an object lesson to see Tim tackle. He seems to be tireless.

Stanley Williams, the full-back, has saved many games for Victoria. He is an English International, gaining his cap in the season of 1909-10. Possessing an uncanny knowledge of what the opposing team is going to do, having a beautiful kick in either foot and "being an extraordinary

CAPT. GADSDEN OPENS FIGHT AT ESQUIMALT RALLY

Advocates Soldier-Labor Farmer as Something Creative

Refusing to attack his opponents and advocating a number of reforms in provincial administration, Capt. H. J. Gadsden, Soldier-Labor-Farmer candidate for Esquimalt, opened his election campaign in the Sailors Club last night before an enthusiastic audience of about one hundred people.

Capt. Gadsden had no apology to make for the Soldier-Labor-Farmer platform, which he was advocating, and he believed it to be self-explanatory. He had no intention of slandering his opponents and was determined to wage a clean fight in the interests of the people. At the same time he expressed the belief that Mr. Pooley and Mr. Heigesen, Opposition and Government candidates, were tied to their leaders and bound to support the principles for which those leaders stood. It was to that fact that he took exception.

Unlike the Premier and the Leader of the Opposition, Captain Gadsden said, he was not appealing to the electors with statistics in millions of dollars to convince them, he proceeded. He had little faith in such figures, he said, and pointed to the loan which the Minister of Finance had floated in the United States at 103. Subsequent costs, he thought, would put this loan in its true light. He considered, in fact, that there was a great deal of truth in what the Premier and Mr. Bowser were saying about one another.

Reviews Platform. Reviewing the entire platform of the Soldier-Labor-Farmer Party, Capt. Gadsden declared it to be the most creative platform ever placed before the electors. Regarding the Old Age Pension Act advocated by his party, the speaker disputed the argument advanced by F. A. Pauline, Government candidate in Saanich, that this was a Federal matter. "It should not be abandoned because the Federal authorities refuse to tackle it," Capt. Gadsden asserted. "A man is entitled to live with some degree of comfort in his old age after a life of toil."

Abolition of the poll tax also was urged by the speaker, who said he had worked to this end in the past, but without avail. The Oliver Government also had opposed the exemption from taxation of the estates of soldiers up to the value of \$5,000, he declared. In this respect the Government had broken its promise.

Capt. Gadsden recommended a system of rural credits for the relief of the farmer. The Province was suffering from lack of production and the importation of food was too great, he thought. There was plenty of land in the Province to produce all the population needed and the plan of rural credits would bring this about to some extent.

Explains Attitude. Referring to his opposition to the nomination of Mr. Heigesen on nomination day, Capt. Gadsden concluded: "I opposed him on a matter of principle. I felt that he should be required to fulfill the law as I had done and I think he would have taken the same stand if conditions had been reversed."

C. K. Christian, one of the Soldier-Labor-Farmer candidates in Victoria, declared that the platform of his party was of particular interest to a manufacturing centre like Esquimalt. "What you want," he said, "is a permanent payroll and a satisfied community," and he went on to point out that British capital was eager to come to the country but was hesitating for want of encouragement. The policy of the Soldier-Labor-Farmer Party called for the development of

"They WORK while you sleep"

the Province and of its iron deposits, said Mr. Christian, and Esquimalt was a natural base for an important part of an iron industry.

Election Promises.

"The Government suddenly awakened on the eve of an election," he asserted. "They suddenly found a hundred and one things to do. Both Conservatives and Liberals are full of political promises but they are trying to beguile you. The Dominion Trust Company episode is enough in itself to condemn Mr. Bowser and the Conservative Party, while a few social enactments are the sole claim of the Oliver Government for support."

Mr. Christian repeated the charge made at a previous meeting that the Oliver Government, through its Department of Industries, had refused to assist a group of 109 returned men, each of whom had invested \$2,500 in a scheme to develop a tract of timber and erect a sawmill.

Thomas Dooley.

Thomas Dooley, one of the Soldier-Labor-Farmer candidates in Victoria, dealt with the educational planks in the platform of his party. To illustrate his assertion that reform was needed he referred to the plight of the Saanich schools and declared that at present the children were being neglected as a result of the parsimonious attitude of the ratepayers and school boards—an attitude forced upon them by the present system of financing the schools. Many children, he said, were unable to attend high schools on account of their poverty, while others were underfed, feeble and unable to take advantage of the facilities offered. The basis of education was well-fed children. Mr. Bowser's plan to give the municipalities a per capita grant would not solve the problem, he thought. What was needed was provincial administration of schools. W. Mackenzie acted as chairman. At the conclusion of the meeting three cheers were accorded the candidate.

VANCOUVER ISLAND NEWS

Nanaimo Club. Nanaimo, Nov. 17.—The premises known as the Nanaimo Club, which has been a citizens' social club house for fifteen years, was taken over Tuesday by the local Lodge of Elks, who recently purchased the property. Every pair of "STARR" skates is sold under an unconditional guarantee.

There is an exact size and style to suit YOU.

Sold by good Hardware, or Sporting Goods Stores.

Write for fully illustrated catalog—sent free.

STARR MFG. CO., LIMITED
Head Office & Works, Dartmouth N.S., Canada
Toronto Branch, 123 Wellington St. W.

"Starr" International Figure Skate

Used by famous figure skaters throughout the world. With this famous model, turns, twists, curves, glides, corks, screws, and all international figures are done with the least possible effort.

Note the graceful lines and correct radius of the runners—Runners of Chrome Vanadium Steel—scientifically hand tempered—saw teeth on front of blade—nickel-plated and polished—all plates special spring steel—A beautifully strong skate, scientifically hand tempered.

COURT SUSPENDS MASTER AND MATE

Commission Hands Down
Judgment in SS. Prince
Rupert Stranding Case

The Marine Court investigating the S. S. Prince Rupert stranding has suspended the certificate of Captain Duncan Mackenzie for a period of four months from the date of the stranding and the certificate of Chief Officer Roderick Mackenzie for a period of two months from the date of the investigation, both officers being held in default according to the finding of the commission.

The report of the court, which concluded its sessions at Vancouver yesterday, is signed by Captain J. D. Macpherson, wreck commissioner for B.C., Captain John Park and Captain Gerald E. Bridge, nautical assessors, and reads as follows:

Report of Court
The Court having carefully enquired into the circumstances, which led to the above mentioned stranding, and the evidence and the chart clearly show that the shore line in the vicinity of where the vessel stranded, is almost a straight line and in view of the angle in which the vessel struck, after sighting the land right ahead, and taking into consideration, the part of the vessel which first came into contact, there can be little doubt, that the "Prince Rupert" was considerably off her course. The Court therefore, finds both the Master, Duncan Mackenzie and the Mate, Roderick Mackenzie in default, neither of them appeared to take the slightest intelligent interest to satisfy themselves that the vessel was accurately steered when altered, nor did they realize that the ship had been swinging under port helm for some period of time, until they suddenly saw the land close to right ahead, at which moment, the vessel going at a speed, in the conditions of the thick weather then prevailing, rendered it impossible to stop within the limits of observation, with the result that the vessel struck and was extensively damaged. The Court therefore suspends the Certificate No. 3667 of Duncan Mackenzie, the Master, for a period of 4 months, from the date of the stranding, 29th September, 1920, and the Certificate No. 7055 of Roderick Mackenzie, the Mate, for a period of 2 months from the date of this investigation, such suspensions to expire on the 29th September, 1921 and the 18th January, 1921, respectively.

COASTGUARD CUTTERS UNABLE TO OVERHAUL THE ROCHE POINT

After scouring the waters of the Strait of Juan de Fuca the American coastguard cutters Arcata and Guard have given up the pursuit of

TENDERS WILL BE CALLED FOR WORK ON PRINCE RUPERT

In response to a telegram dispatched by the President of the Board of Trade to D. B. Hanna, president of the Canadian National Railways, relative to the point of drydocking following the stranding of the steamship Prince Rupert, the following message was received to-day by the Board: "Message received. When Prince Rupert is floated she will be taken to drydock at Prince Rupert, this being the nearest point. Later when damages have been ascertained specifications will be prepared and tenders called. This will give all shipyards an opportunity to tender on the work."

The 80-foot power boat Roche Point, the Roche Point, which was held at Seattle by the United States marshal under libel proceedings, was stolen away from the King & Winge plant, and after a flying trip to this port, where she took on more fuel, cleared for Port Alberni, where she is owned by the Stone brothers.

PRINCESS ROYAL IS REPAIRING IN PORT

Starboard Rail and Upper-
Works Extensively dam-
aged by Collision

Twenty feet of her rail on the starboard side and part of the housework of the steamship Princess Royal is damaged as the result of the recent collision with the coastwise freighter Marmion and the bulk Louisiana. The Princess Royal has just returned to this port from the Mainland and is now tied up at the Belleville Street wharf of the C. P. R. undergoing repairs. Workmen from the company's shops were put aboard the Princess Royal this morning, it being planned to rush repairs in order that the vessel may again be commissioned within two weeks.

Relief Boat.
The Princess Royal will be needed to fill in as relief boat during the conversion of the C. P. R. coastwise passenger boats as coal burners. The first of the fleet to be laid up to be changed from oil to coal consumption will be the Princess Mary, which is due to come here for alteration to her furnaces and bunkers following the completion of her present trip to Skagway.

Under the present arrangements the Princess Beatrice will make the next voyage to Alaska from Vancouver. The marine investigation into the recent collisions between the Princess Royal and Charming and the Princess Royal and Marmion will be instituted next week. As the crew of the Princess Royal is here it is likely that the marine inquiries will be conducted in Victoria.

TRAFFIC AGENT HERE.

Lester A. Brockwell, traveling agent, traffic department, Southern Pacific Lines, is in town to-day from Seattle.

REPAIRING COLLISION DAMAGE HERE

SS. PRINCESS ROYAL

TAJIMA DELAYED IN MAKING PORT

N.Y.K. Liner Now Expected
to Follow Montegale
on Sunday

Running several days behind schedule the Nippon Yusen Kaisha liner Tajima Maru is not expected to arrive here before Sunday. The Japanese liner was listed to make Victoria to-day, but at noon yesterday the Estevan wireless station reported her 740 miles out.

The latest indications are that two offshore liners will make port November 21. Estevan was again in touch with the C. P. O. S. liner Montegale, which is expected to make quarantine tomorrow after sundown. The Montegale will in all probability come to her berth at the Outer Docks on Sunday morning. It will be later in the day when the Tajima Maru ties up.

With a capacity list of passengers the Nippon Yusen Kaisha liner Katori Maru will leave port late this afternoon on her return voyage to the Far East.

The Osaka Shosen Kaisha liner Manila Maru will reach Victoria early to-morrow morning, according to word received by R. P. Rithet & Co., local agents. The Arakawa Maru, of the same fleet, will sail outboard to-morrow afternoon.

NOTICE TO MARINERS

Mariners are notified that the D. G. S. Estevan is now engaged in replacing the Aga buoy at the mouth of the Fraser River. The Agent of Marine also gives notice that a black spar buoy will be established by the Department of Marine on the south extremity of Parthia Shoal, Vancouver Harbor, and the red spar buoy now maintained in the First Narrows will be moved northward to the five-fathom line, opposite Parthia Shoal. This work will be performed on or about the 23rd inst., and a printed notice giving further particulars of the change will be issued from Ottawa in due course.

CANADIAN MAIL ON EMPRESS OF RUSSIA

C.P.O.S. Liner Took Out
First Consignment for
Orient in Months

Flying the Royal Mail flag for the first time in three months, the C. P. O. S. liner Empress of Russia, Captain S. Robinson, R.N.R., cleared from the ocean docks here shortly before midnight for ports in the Orient. The liner took out a consignment of specially addressed Canadian mail in addition to five cars of United States mail.

Owing to a dispute between the transportation company and the postal authorities regarding subsidy the liners of the C. P. O. S. fleet have been sailing of late without Canadian mails.

A total of 1,176 passengers were booked for the passage. A pleasing incident occurred at the wharf last night when William Allan, of R. P. Rithet & Co., on behalf of the shipping community, made a presentation of silver plate to Mrs. Lee Mong Kow, wife of Lee Mong Kow, for many years connected with the Chinese immigration service here and now comrade for the C. P. C. S. at Hongkong.

In making the presentation Mr. Allan referred in appropriate terms to the esteem entertained for the prominent Chinese family in Victoria and gave expression to the hope that Mrs. Lee Mong Kow would accept the gift as a memento of her lifetime association with this city.

KEEL OF NEWEST C.P.R. BOAT IS LAID AT WALLACE PLANT

Vancouver, Nov. 13.—The keel of the new C. P. R. passenger steamship was laid at Wallace's shipyard in North Vancouver on Tuesday, and work will proceed steadily. The ship will be one of the largest steel passenger vessels of the C. P. R. coasting fleet, and is being built to take the place left vacant by the sinking of the Princess Sophia. She is to be constructed to the specifications and inspection of the British Corporation.

No name has yet been selected for the new steamer. The Wallace shipyard officials expect to have her ready for launching in the Spring.

ONE ADVANTAGE OF HEAVEN
"The door closed behind an irate neighbor who had come to complain regarding certain of Tommy's shortcomings. A few moments later, as he was tearfully preparing for a prematurely early bedtime, he said to his mother:
"I wish we lived in heaven, mother."

His mother inquired the cause of his sudden aspiration toward better things.
"Oh, well," he sighed, "you know the angels wouldn't be half as hard to please as the neighbors are."

Pittsburgh Chronicle-Telegraph.

SPOKE TO CANADIAN CLUB TO-DAY ON BOYS' WORK

CHARLES W. BISHOP

Late Sport News

Calgary, Nov. 19.—The editor of The Calgary Herald has communicated with Frank Patrick with a view to the arranging for the submissions of evidence in proper form. Mr. Patrick is being assured of the keen desire of everybody to help clear matters up and he is being invited to lend every possible assistance to this end.

English Rugby Results.
London, Nov. 19.—(Canadian Associated Press)—In Rugby Union championship games played to-day Middlesex defeated Kent by 17 to 9 and East Midlands was defeated by Leicestershire 12 to 3.

Kerasos Wins Derby Cup.
London, Nov. 19.—(Canadian Associated Press)—The Derby Cup was won to-day by Kerasos, 33 to 1; Celestity, 33 to 1, was second and Holbeach, 26 to 1 was third. Seventeen horses ran.

First Game in P. C. H. A.
Vancouver, Nov. 19.—Monday, December 27, will probably be the date set for the first hockey match of the season in Vancouver by the officials of the P. C. H. A., at their annual meeting here to-night. This season, as already announced, the coasters will schedule twelve home games in each city on the loop, the season opening the latter part of December and continuing until late in March, when the world's series will be played in the West.

Frank Patrick, president of the P. C. H. A., since the organization of the body ten years ago, will probably be re-elected at to-night's meeting.

English Rugby Results.
Before recommending that the agreement to pay the \$3 per ton pig iron British Columbia production bounty be signed, under the act passed three years ago, the Attorney-General said he had investigated the bona fides of the interested parties. Inquiries were instituted through a Vancouver bank, and it was found that the financial standing behind the deal was satisfactory. Upon the strength of this the Order-in-Council sanctioning an agreement between

the district leaders and team captains were announced yesterday as follows:
Group One—District leader, R. A. Playfair; captain of team 11, Kenneth Ferguson; team 12, Gordon Strickland; team 13, C. H. Willis; team 14, P. B. Graham; team 15, Wallace S. Terry; team 16, G. D. Christie.

TYPOGRAM

J. N. Harvey's Personal Editorial

Honest John and Bowser are having their worries just now. They will know what is what on December 1st. I expect to beat them to it. The Landlord has set my fate for to-morrow. I will then know what is what. They have the voters of B. C. to deal with. I am up against the Landlord and the Bank. I would almost swap horses with them. We are working overtime to secure a lease of these premises. The newspapers say the Bank wants the property. That we have occupied for ten years. That's why I must campaign hard. I have one more day to do it. It's wonderful the way the public responds to an appeal of this kind. When it is backed up by real bargains. I made up my mind when I started this sale To forget all about high prices! The fact that my lease expires to-morrow Makes me realize that the **ONE BIG THING** to do **IS TO GET OUT FROM UNDER.** That's why I'm selling at such low prices. And explains why we are doing the business. If you buy A \$50.00 Suit for **\$31.65.** A \$45.00 or \$50.00 Overcoat for **\$33.65.** Or a \$30.00 Rubberized Overcoat for **\$18.65.** (And believe me I'm doing it) isn't it natural That you tell your friends you got them At J. N. Harvey's Expiration of Lease Sale. We still have Thousands of Dollars worth of **THOSE FINE SUITS, OVERCOATS and WATERPROOFS.** Men's Furnishings, Hats and Caps; That we have priced regardless of cost. These **MUST BE SOLD** That's why I am offering them at a snap. I've got to get rid of them. To-morrow, Saturday Should be a "Record Breaker" Get in on these Bargains It's up to you now.

Yours for "Real Bargains,"
J. N. HARVEY.

A SPECIAL GROUP OF MEN'S OVERCOATS

Almost every good style in this group. Heavy warm coats, with convertible collars. Shorter coats with and without belts, also easy-fitting slip-ons. Big variety of cloths. You might just as well make these savings. Regular to \$50. Sale Price **\$33.65**
\$30 Rubberized Tweed Overcoats Sale Price **\$18.65**
Really two coats in one. Being tweed covered, it has all the appearance of a smart overcoat. The cloth is rubberized by a process that leaves the garment soft and pliable and yet absolutely waterproof. Made with convertible collars and detachable belts. Regular \$30.00. Sale Price **\$18.65**
See It In Window

HERE'S A BARGAIN

Some of the finest lines of men's shirts of imported materials from our very best makers. Values up to \$9.00. Sale Price **\$4.35**

J. N. HARVEY, LTD. 614-616 Yates St. Also 125-127 Hastings St., Vancouver

SAYS MR. BOWSER STRONGER THAN EVER

M. P. Gordon Also Declares
Conservatives Not Proved
to Be Crooked

Mr. Bowser is stronger today than he ever has been in his political career, in spite of all the propaganda put out against him, M. P. Gordon, Conservative candidate in Saanich told a meeting at St. Mary's Hall, Oak Bay, last night.

"The Liberal campaign of 1916 was waged on promises and that is why they are in their present difficulties," said Mr. Gordon. "The people to

whom they made promises are now pressing them.

"Mr. Pauline has said that the Conservatives are crooked, but that statement has never been proved. On the contrary, all the investigations since 1916 have been on the Liberals. All the talk against Mr. Bowser amounts to the fact that the Liberals have had four years to prove something against him and they have not been able to do it."

Soldier Settlement Failures
Mr. Gordon repeated the M. A. MacDonald charges the P. G. E. Insurance charges against the Hon. John Hart, said that efforts to reclaim Sumas Lake have been failure, and charged that Attorney-General Farris had taken out of the Prohibition Act the jail penalty clause that Mr. Bowser had put in.

He said that the Government has spent \$2,400,000 on soldier settlements, which have turned out to be only experiments.

"When a Government is going to spend the people's money they should know what they are about," said Mr. Gordon, who quoted the Premier's

statement that about the experimental nature of the settlements.

"Take the soldier settlement at Merville, near Courtenay. That it simply is a mass of dissatisfaction and in the Okanagan things are far worse."

No Tax Aid From Premier

"This election will be fought on the question of finances of the municipalities," said J. J. Shallocross, reading Bishop Macdonald's letter stating that municipal taxation was monstrously unjust.

"A Government that will not redress such a state of affairs is not fit for office. Premier Oliver has done nothing."

"Mr. Bowser will give a per capita grant if he is elected and the grant from the Province will increase as population increases. The poll tax should be collected from the Province as a whole because people move from place to place."

Relief From Mr. Bowser

"We can get relief from Mr. Bowser and not from Premier Oliver and therefore we should vote for the Conservative leader."

Mr. Shallocross declared that if the Government had given a little assurance of help in 1918 the \$5,000,000 of land that had been bought in at the last tax sale would never have gone back to the city. Taxation in Oak Bay has been raised from 18.9 to 25 mills and there is no sign of it ending.

"Taxes are bound to go up and some sort of contribution from the taxation on personal property is the only measure of relief from the municipalities," he said. A. W. Gilbert was chairman.

An ambitious young author sent a humorous paragraph to the editor of a daily paper. Time passed, and he heard nothing nor was it printed. So he wrote to enquire about it. "I sent you a joke about ten days ago. I have heard nothing respecting its safe receipt, and should be glad to hear if you have seen it." The editor replied, "Your joke arrived safely, but up to the present time we have not seen it."

CONTINUE PROTESTS AGAINST CLOSING

Returned Men Angry Over
Federal Government Action
Regarding Hospital

Returned soldiers organizations in the city are up in arms respecting the Dominion Government's declaration that it will close down the Esquimalt Military Hospital at the end of the year. As reported in yesterday's Times, the reason for this action is that the blasting in connection with the new drydock in the vicinity would make the use of the hospital impracticable.

Resolutions have been passed by the G. W. V. A. and the Veterans of France, wires and letters have been sent to Ottawa in protest and every effort is being made to carry the returned men's objection to the hospital closing.

Veterans' Stand.
Yesterday the Veterans of France sent the following letter to H. F.

Backache

toils of kidney trouble. The most prompt relief is obtained by using Dr. Chase's Kidney-Liver Pills, the well-known home treatment. One pill a dose. 25c a box, all dealers.

**Dr. Chase's
Kidney-Liver
K & L Pills**

Parkinson, Deputy Minister Soldiers' Civil Re-establishment, Ottawa:

"To-day we telegraphed Premier Meighen regarding a statement that it was intended to close Esquimalt Hospital on December 31, 1920, and we desire to take strong exception to this intended action, for the following reasons:

"We have it on very definite authority that any work which may be started on the new drydock will not interfere with treatment of patients at Esquimalt, at any rate during the first three months of 1921. During the winter we must expect to have more ex-soldiers requiring treatment and December 31 is a very bad time to think of closing this institution."

"We trust that it is not intended to transfer patients from the vicinity of their homes on Vancouver Island to the mainland. According to the information which we have received up to date there is an intention of keeping the patients on the island meantime and transferring them to the Jubilee Hospital. If the Jubilee Hospital authorities were in a position to give the patients the same comfort and treatment as they received in the Esquimalt Hospital then there would be no reason for any further objection, but this is not so."

"For your information I give an extract from a report on the Jubilee Hospital dated February 4, 1920. This report was made by the Kiwanis Club, Victoria, owing to the deplorable conditions existing in the Jubilee Hospital at that time, and which still exist when this institution has its full complement of patients. Since the February, 1920, report, no further building has been done in connection with the Jubilee Hospital, so that there has been no improvement up to date."

Extract from letter addressed by R. S. Day, chairman of Jubilee Hospital Board, to President of Kiwanis Club, Victoria:

"The population of Victoria and the surrounding districts has outgrown the hospital. In every department we are over-crowded, and in some we are badly over-crowded to the detriment of the patients. Sixteen patients in a ward designed for eight. Three in a room meant for one. Every-day occurrences and even syphilitic patients in a room with clean ones."

The above extract from the chairman of the Hospital Board's letter

speaks for itself and certainly was not an exaggerated statement.

Jubilee Hospital Facilities.

"Until further building is done at the Jubilee Hospital it is certainly

inadvisable to place S. C. R. patients there, at least not until the winter rush is over. There is no accommodation for the recreation so necessary for the patients' health; and when S. C. R. patients were there last year there were continual complaints received by soldiers organizations regarding the undue over-crowding. One complaint we received being the case of an ex-soldier in the public ward with a Hindu on his one side, a Chinaman on the other and two beds away a venereal case. Conditions like the last-mentioned are not desirable and will not be permitted to take place as long as we have organizations to look after the interests of our disabled men."

"In view of the present condition of affairs at the Jubilee Hospital, that is the condition which exists during the winter months, especially after Christmas, we would strongly urge that Esquimalt Hospital remain open until the end of the winter, in view of the fact that very little will be done on the drydock during the next few months."

"We have no desire to embarrass the Government, as we quite realize that everything must be done to cut down expenditures, but would again point out that in cutting down expenditures nothing should be cut out that would tend to interfere with the comfort of our disabled soldiers who deserve the best of treatment and most recovery in the hospital."

"Hoping to hear that our request in this matter has been successful."

GREETERS VISIT HERE

Vancouver and Seattle Delegations Were Entertained Yesterday

Representative Greeters from Vancouver and Seattle were entertained in the city yesterday by local Greeters and the visitors last night were loud in their praise of the splendid time they had had here.

The visiting Greeters were taken for a drive around the city yesterday morning and luncheon was served at the Westholme Hotel. During the afternoon a business session was held, which was presided over by Thomas Stevenson of the Dominion Hotel, followed by another drive through the scenic sections of the district.

After a very enjoyable dinner at

the Dominion Hotel the gathering broke up into groups, and the local theatres were visited.

A man was fishing in a pond one day when a country boy approached and asked: "How many fish have you got, mister?"

"None yet," he was told, according to the Boston Transcript. "Well, yer ain't doin' bad," said the youngster. "I know a feller-what fished here for two weeks, and he didn't get any more than you got in half an hour."

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalants and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

VARIETY

No wonder Allan Marsh was startled and horrified when he saw Richard Bedell, his war time buddy, with an army pistol in his hand. Many men have killed themselves for less than Richard had been through. No wonder either that Richard was explained to his friend that he was only intending to pawn the weapon for temporary relief from his troubles and not to use it to end them permanently. The scene is one of many tense situations in "Trumpet Island," a spectacular special production by Vitaphone, which will be shown at the Variety Theatre again today. The story was written by Gouverneur Morris, edited and revised by Mr. and Mrs. George Randolph Chester for Vitaphone, and directed by Tom Terriss with an all-star cast headed by Wallace MacDonald and Marguerite de La Motte. The added feature at the Variety this week is the great animal picture, "The Lost City."

PRINCESS

The cowboy comedy, "Boss of Bar Z Ranch," now playing at the Princess Theatre, is delighting the splendid crowds it is attracting and is nothing but fun from beginning to end. Genevieve Beekley has what might be termed her best comedy part since her first appearance in "Which One Shall I Marry," and she is furnishing her full quota of fun. Tom Sullivan as her ardent and devoted admirer, is also doing good work, as are all the members of the cast. Miss Page and Mr. Alden work together in a highly pleasing manner in fact each of the players adds his or her share toward the delightful whole. The play is beginning at 8 o'clock this week, and after a two hours' worthwhile entertainment, this leaves time enough for everyone to catch cars, and from the reception accorded the 8 o'clock rising of the curtain it would appear that everyone is pleased to be out earlier. Remember the children are again invited to enter "the best criticism contest," and those who write the best criticism of "Boss of Bar Z Ranch" will receive first prize, \$25, second prize, \$2, the prizes to be given from the stage during the Saturday matinee on November 27. The next play will be "It Pays to Advertise," and on the opening night, Wednesday, November 24, every lady who attends will receive a souvenir photo of Mr. Tom Sullivan.

ROYAL VICTORIA

Social parasites who have wormed their way into the confidence of the unsuspecting Mary Grant, plot to steal the fortune she won at Monte Carlo in "Passions' Playground," the first National picture starring Katherine Macdonald and to be exhibited at the Royal Victoria Theatre again to-night. They drag her in an old chateau and are about to make a getaway with her valuables when Mary's prince, happened on the scene. The picture, in a "desperate" fight, bests the villainous Lord Dauntrey and recovers the jewels. The picture is the film version of the famous book dealing with life at Monte Carlo, "The Guests of Hercules," by C. N. and A. M. Williamson.

DOMINION

Effective scenes of enormous oil wells, gushing hundreds of feet into the air, are features of "The Jailbird," the latest Thomas H. Ince production for Paramount, starring

Douglas MacLean, which is now at the Dominion Theatre. The gusher scenes were taken in Bakersfield district of California where special permission to photograph one of the latest wells was secured by Mr. Ince from a large petroleum producing company. "The Jailbird" is the story of a crook who attempts to swindle the inhabitants of a small town by promoting an oil boom and disposing of a large amount of worthless stock. However, the well comes in, his efforts at crookedness are foiled, and he finds himself the town's wealthiest and most respected citizen. To make the story complete, through his love for the prettiest girl in the village, he is reformed in a novel manner.

The picture was directed by Lloyd Ingraham from a story by Julien Josephson. Doris May heads a capable supporting cast which includes such players as Lew Morrison, William Courtright, Wilbur Higby, Otto Hoffman, Monty Collins and Bert Woodruff.

PANTAGES

Mme. Donatella and her Italian spies are the feature of this week's offerings at Pantages Theatre. The company includes talented vocalists and instrumentalists who present a programme of music varying from grand opera to popular airs. The act is given in a magnificent setting reminiscent of Venice in the moonlight while a carnival is in progress. The costumes are also striking. Another act of exceptional beauty is "The Four Fantinos," a combination of tableaux and dancing with lavish scenery. A contrast is offered by the comedy work of John King and Dave Irwin, who appear in a darkface farce entitled "Countryside Divorcement." Harry Bussey is a versatile artist whose performance consists of conjuring, juggling, singing, cartooning and dancing. Frank Cook and Jean Vernon appear in their musical comedy success "Sister Susie," which gives them scope for the presentation of clever dialogue as well as fascinating music. The Four Fantinos are aerial gymnasts who are seen in a series of remarkable feats. Another episode in "Trilled by Three," the Pathe adventure serial, completes the programme.

COLUMBIA

Frank Mayo and a cast of unusual excellence were seen last night at the Columbia Theatre in "The Red Line," a new Universal production from the pen of Holman Day. A story brimful of startling situations, with a well-woven plot, surprising as it unfolds, makes "The Red Line" one of the most interesting photo-dramas seen here in some time. Every moment is one of expectation and surprise for the audience, and the

To one of these men on the desolate island the rescue-boat was bringing life and success—and to the other it was bringing death and dishonor.

ALL NEXT WEEK
VARIETY

life of the North Woods and romance of the Canadian border territory are entrancingly shown. As the young American customs officer battling the smugglers of the far north, Frank Mayo is seen at his best. This virile screen star delights with his portrayal of the role of Norman Aldrich, and aways the audience as he does his faithful French-Canadian friends, Lillian Rich in the role of Marie Beaulieu is the object and aim of Aldrich who strives to win her love as he does in "cleaning up" the Red Lane, the road by which contraband is smuggled across the border.

ROMANO

Each succeeding Eugene O'Brien picture advances this talented young player another milestone along the road of public approval and his latest Selznick Picture, "The Figurehead," should prove to be his most popular effort for everything that was possible has been done to make the picture a success.

The story, by John Lynch, provides the star with a vigorous, virile role but at the same time gives considerable opportunities to the supporting members of the cast, which includes Anna Q. Nilson, Ora Carew, Edwin Stevens, Joseph Girard, Frances Parks, and retound and genial Kate Price. This play the star is seen as Sheridan Dow, a young society man who, in a spirit of adventure, allows himself to become a candidate for Mayor in a graft-ridden city. In reality he is but a "figurehead" for the political craft which some of the "old guard" are trying to wreck. Young Dow takes his nomination more or less as a joke until he meets "the girl." This inspires him and then when the political grafters see their plans going awry and try their old political game of "mud-slinging," with he and "the girl" as the target, he enters into the fight with a vengeance. The cat's-paw shows his claws and the "figurehead" proves himself to be the real head of his party.

Massive sets, beautiful photography and excellent direction by Robert Ellis all combine to make "The Figurehead" Eugene O'Brien's best photoplay.

AT VARIETY NEXT WEEK.

Everyone seems to agree that next to perfection in production, the chief requisite for a perfect motion picture is a real honest-to-god story. It's that type of a dramatic tale that David W. Griffith has based his latest photodrama on for United Artists. "The Love Flower," a wonderful dramatic production, "The Love Flower," will be a feature at the Variety Theatre, beginning Monday.

The story has to do with Stella Bevan, whose father returns from serving an undeserved sentence in prison to find himself alienated in his home town and the breach between him and his unsympathetic wife is widened by Bevan's affectionate devotion to his daughter by his first wife. This story is filled with an endless amount of action and suspense and is conceded to be one of the most dramatic stories that has been produced by Mr. Griffith. The story was exceedingly popular when it was run in Colliers Weekly, it being from the pen of Ralph Stock.

BAIRNSFATHER WILL APPEAR NEXT THURSDAY

Captain Bruce Bairnsfather, who will be at the Royal Victoria Theatre on Thursday, Nov. 25, is the famous British cartoonist and humorist. He will deliver his new lecture, "Old Bill Me and the Income Tax," and has discovered that a certain class of philosophers who write for newspapers and magazines are not in favor of seeing the bright side in these unhappy times. "An American writer," says Bairnsfather, satirically, "has just told us that if we want to alter things today we must be miserably dissatisfied with things as they are. To tell a man to cheer up, he says, is treason. When I received my income tax bill this morning I felt inclined to take his advice. I decided forthwith to be one of those confirmed pessimists who are never happy unless miserable. I wouldn't only refuse to cheer up, but would prefer to sit back in my room gazing out on the miserable world with the joyous look of a man whose beloved rabbit has just died or whose pet goldfish lies reclining inside the household cat and enjoying it immensely. "Hereafter I was inclined to say quite frankly that the man who wanted to raise as much as half a smile on my lamentable countenance would have to unscrew my face with a King Dick spanner. He would have to loosen the nuts, and the danger would be that he might make it worse than it is. "Oh, yes, it's easy to be miserable these days. I have used up all the misery I had about me and now I have a few hours rest in order to save up some more. Meanwhile it reminds me of the colored man who was being hanged one Monday morning. "Have you anything to say?" asked the hangman. "Yes," said the darkey, "I jes have one word to say, boss. What you are going to do is outtully gwine to be a lesson to me, but I must say it's a rotten way to start a week."

MRS. HELE ASH SPEAKS ON "THE SUPER-MAN"

Mrs. Hele Ash lectured last evening at the Dominion Academy of Music, on "The Super-Man." It had been said, she remarked, that man-to-day, after centuries of evolution, was less than twenty per cent efficient. The destiny of the race was to evolve from man as he is; to his natural state of super-man. Evolution, not revolution, it had been aptly said, was the hope of the race. Man was awkward in his movements, and often heavy of gait,

but, when he once realized his powers, as a super-man and drew consciously upon the mysterious super-powers within him, known by many names, but in reality "spirit" or spiritual force, his touch became light and his steps swift. Contrast the terms "sprited" and "spiritless" and see what each called to mind, the one eager, alert, alive, quick of motion and action—the other, how heavily he went, how slow his step, how inert of body and soul.

"The super-man is a conqueror, his destiny to conquer all things. Laws were made by God to be discovered by man, that by an understanding of law he might conquer all things. The super-man as conqueror, finds his conquests in the realm of spirit, but here and now," the lecturer said.

Man, as a tri-partite being, lives here and now, in three realms—the physical, the mental and the spiritual, she said.

The Radiance of Fame. Here and there in the history of the race, great souls, stupendous intellects loomed up in bold relief, but the super-man who is in the making, to-day, must be developed in every part of his three-fold being, said Mrs. Ash.

Out of the unrest and tumult in the world to-day would presently evolve a new race, she declared, as all the upheaval and distress on every side were but the birth-pangs of a new race. Everyone, to-day, was reaching out hungering for something.

Christ had said "Feed My lambs." "It is the food of the spirit that we must have. The spiritual faculties can be developed by practice."

Conquests Over Temper. "We have daily lessons in conquests, conquests of ill-nature, selfishness, resentment, the temptation to do little acts of questionable honor for selfish ends, and these are but kindergarten lessons of practice for the ultimate conquests of the super-man," said the speaker.

"The super-man sooner or later has learned of the great reservoir of force, energy, spirit, he has within himself 'on tap' so to speak. It is of very practical use, and once drawn on, proves a fathomless source of strength."

Spiritual Powers. "Let anyone when weak, call up the powers within by saying 'I can go no farther—you take me up,' and if he does not lose all sense of fatigue and take on a new strength, it will indeed be unnatural."

"The super-man must develop every part of his being and he will presently do with his higher spiritual faculties what he is doing with instruments and machinery to-day," Mrs. Ash said.

"He will telepath his messages, only one degree more wonderful than telegraphing by wireless telegraphy, he will move across distances with the same swiftness as thought, he will know things at first hand, he will know life an never before, every faculty increased and transmuted to a spiritual faculty, he will be in every

Pastry With the Touch Of a Master Baker

Do you want "good" pastry every time you bake? Then profit by the experience of the Master Baker. He knows that good pastry requires a special kind of flour—he never uses the same kind of flour for cakes as he does for bread.

Wild Rose Pastry Flour

Is specially milled from soft kneaded wheat. This means a flour that will make light cakes, flaky pie crust—in fact it will give you pastry with the touch of a Master Baker.

Flour made from this soft wheat contains less gluten than ordinary hard-wheat flour. That's why Wild Rose saves you twenty-five per cent, shortening—that's why delicious cakes can be made with less eggs—that's why it is the most economical flour you can use in Pastry making. Wild Rose is put up in convenient 10-pound sacks—order a sack from your grocer today.

sense a 'holy' man which simply and literally means a 'whole man'—a complete man, conscious of his power, every faculty developed to its highest, having attained to the

Measure and Stature of Christ, the perfect man. Mrs. Alice M. Christie acted as chairman.

by the interested and attentive audience. In the future Mrs. Hele Ash will announce a course of lessons in practical psychology.

Are You Thinking Right About Rubbers?

HAVE you been thinking on the wrong angle that "rubbers are rubbers," and that as long as you can get a pair of rubbers over your shoes, they will be all right? On the contrary, you ought to look as carefully for quality, comfort and wear in your rubbers as you do in your shoes.

And you should be just as particular about the fit of your new rubbers as the fit of the new shoes. The dealer who fits your shoes with

Dominion Rubber System Rubbers

can fit them perfectly, because he is able to obtain styles and shapes for every shoe worn by men, women and children.

He has proved, by practical experience, the dependable quality, sturdy wear and easy comfort of these Dominion Rubber System products, and knows that both rubbers and shoes wear longer when properly fitted.

You certainly get the best service as well as the best rubbers when you go to the dealer who carries Dominion Rubber System rubbers.

CANNOT EXCLUDE JAPANESE ON WORK

Why Court Rules Province
Must Give Them Equal
Show on the Contract

Reasons for Chief Justice Macdonald's judgment in the Court of Appeal on the Japanese question, as already briefly reported, were issued yesterday.

In the judgment, signed by Chief Justice Macdonald and supported by the Justice Committee, with Mr. Justice McPhillips arriving at the same conclusion by a different line of argument, it is explained that British Columbia has no powers under the British North America Act to interfere in any way with the Japanese Treaty.

By this decision the Province in its public works contracts can put no provisions prohibiting the employment of Japanese on these works. Attorney-General Farquhar appeared before the Court here at one of its last sessions and argued for the right of the Province to pass orders against Japanese employment. He was opposed by Sir Charles Hibbert Tupper, K. C., representing the Japanese Association of B. C., and Charles E. Wilson, K.C., for the shingle manufacturers of B. C.

The judgment of Chief Justice Macdonald is as follows:

Questions Submitted.

The first and second questions submitted are as follows:

(1) Does the said Japanese Treaty Act, 1913, operate or apply so as to limit the effect of the legislative jurisdiction or powers of the Legislature of the Province, and, if so, in what particular or respect?

(2) If the said Act does not operate or apply so as to limit or affect the legislative jurisdiction or powers of the Legislature of the Province, does the said Treaty itself operate or apply so as to limit the legislative jurisdiction or powers of the said Legislature and, if so, in what particular or in what respect?

These two questions are general and comprehensive but the argument of counsel was confined to the concrete question of the effect of the Treaty and the Treaty Act upon the powers of the Provincial Legislature in relation to the rights, duties and disabilities, in pursuit of their callings in this Province, of subjects of His Majesty the Emperor of Japan.

Case in 1899.

In my opinion, the answer to both questions is to be found in the judgment of the Privy Council delivered by Lord Watson in *Union Colliery Company, of British Columbia, vs. Bryden and the Attorney-General of British Columbia*, 1899, A.C. 580. The Provincial legislation in question in that case prohibited the employment of Chinamen underground in coal mines. The decision makes it clear that in all direct, which concern aliens and naturalized persons resident in Canada, the Dominion Parliament is invested with exclusive jurisdiction by virtue of Sec. 91, Sub-sec. 25 of the British North America Act, 1867.

Neither the Treaty nor the Treaty Act can, in view of the Treaty, be construed as to operate or apply so as to limit or affect the legislative powers of the Province in the premises. They cannot be construed as to operate or apply so as to limit or affect that which has no existence.

My answer, therefore, is that the Legislative Assembly of this Province has no jurisdiction in the premises, not because of the Treaty or the Treaty Act, but because powers to legislate was withheld by the British North America Act.

Japanese Status.

The third and fourth questions are as follows:

(3) Is it competent to the Legislature of British Columbia to authorize the Government of the Province to insert as a term of its contracts for the construction of Provincial public works a provision that no Japanese shall be employed upon, about, or in connection with such works?

(4) Is it competent to the Legislature of British Columbia to authorize the Government of the Province to insert as a term of its contracts for the construction of Provincial public works a provision that no Japanese shall be employed upon, about, or in connection with such works?

It follows from the answer to the first and second questions, that it would not be competent to the Legislature to pass a law prohibiting the employment of Japanese in or about the works and premises referred to in the questions, but it was argued by the Attorney-General that the Government might, with propriety, insert in its contracts terms placing the other party under obligation to refrain from employing persons of a particular race just as the Government itself might, if it were the employer, pick and choose its employees.

Two Sets of Questions.

The answers to the other two questions, I think, apply as well to these but, if not, then as the Treaty Act has made the Treaty the law of Canada, in so far as the subjects embraced in it are within the legislative powers of Parliament, any Act or resolution of the Provincial Legislature repugnant thereto would be contrary to the Dominion statute and, therefore, beyond the competence of the Provincial Legislature to enact or pass. It is necessary to refer to the difference between the two sets of questions: The first and second questions affect only Japanese subjects. The third and fourth question refer to "Japanese," a description which may refer not only to a nationality but to a race irrespective of nationality.

In the case, to which reference has already been made, the Privy Council had to determine what was meant by the description "Chinamen" in the statute there in question and came to the conclusion, in the circumstances of that case, that the statute was aiming at both alien and naturalized Chinese and that, as to both classes, their rights and disabilities were in the hands of the Dominion Parliament. It may, therefore, be accepted that the description "Japanese" in the third and fourth questions embrace both alien and naturalized Japanese. Those of that race who are natural born British subjects may, and I think do, in relation to their civil rights, in the pursuit of their callings, come within a class by themselves. No argument was presented by counsel upon this aspect of the matter and the question themselves do not go the length

RETURNED SOLDIERS

WHEN casting your ballots in the Provincial Election on December 1 remember that the Oliver Government has done more to assist in re-establishing the veterans of the Great War than any other Government in Canada. It is deserving of your support.

Your Comrades Say:

At the annual meeting of the Dominion Army and Navy Veterans' Association on October 12, 1920, delegate Young of Victoria in outlining legislation that has been enacted in British Columbia for the benefit of ex-service men, said "they are satisfied now."

At a meeting addressed by Premier Oliver at Revelstoke in October, 1920, Dr. Hamilton, president of the Revelstoke branch of the G.W.V.A., tendered the Premier the hearty appreciation of the returned veterans for the Government's valued assistance. He assured Mr. Oliver that the returned men were in full accord with the Government's attitude toward's them.

Mr. Giolma, M.L.A., soldier member for Victoria, speaking in the House, February, 1920, said, in referring to the resolution passed by the Legislature last year, whereby the House went on record as favoring preference to returned men in Provincial appointments, that the Government, he considered, had honorably carried out the spirit of that resolution.

Capt. Ian Mackenzie Says:

British Columbia is pointed to by veterans throughout the Dominion as the home of the best legislation in the country affecting the heroes of the war.

Fault-finders among the opposition who vaguely refer to "a square deal" for returned men but offer no constructive policy, only point to one instance where, in their opinion, reason for dissatisfaction could be established.

THE GOVERNMENT AT VICTORIA THAT ALREADY HAS GIVEN YOU A SQUARE DEAL AND A PRACTICAL RE-ESTABLISHMENT POLICY IS THE ONE THAT YOU WILL NATURALLY CONTINUE

Vote for Liberal Candidates Dec. 1

INAUGURATE SERIES OF VETERANS' CONCERTS

A highly successful concert inaugurated the series of smoking gatherings given under the auspices of the Veterans of France, held in the club rooms on Wednesday evening.

Fully three hundred veterans and their friends turned out despite the bad weather conditions, to enjoy what was a varied and excellent program, rendered under the capable chairmanship of Comrade G. W. Palmer, lasting until eleven o'clock.

In referring to the various artists, mention may be made of T. Kelway, who rendered in his inimitable style "When Irish Eyes Are Smiling." In response to the repeated applause which followed he obliged with "Macaulay."

The novelty of the performance was undoubtedly the very clever impersonation of Norman Buckle, otherwise "Miss Norma Buckle." Many

in the audience were in considerable doubt as to the real sex of the performer until the artist in question removed "her" hat and wig at the close of "her" performance, which well merited the appreciation of the listeners.

Comrade Povah was in excellent voice and delighted with "Thy Sentinel Am I," giving "Sailing" as an encore.

The humorous element was provided by Comrade Incledon, who needed no introduction, his old favorite, "Put on your ta-ta, little girl," being encored. His humorous anecdotes entitled "Five T's are T" brought down the house. Comrade Landy also provided a novelty turn with his clever musical manipulation of spoons.

During the interval Mife-Major Donald Cameron, of the Veterans of France Pipe Band, gave a selection of Scottish airs and reels.

Others contributing were Comrades Jones, Harper, Parkinson, and Day.

During the evening refreshments were served, also smoking material. A few words of welcome by the President brought the evening to a close with the singing of the National Anthem.

Every Wage Earner Should Answer Question Himself or Herself

WHAT DOES THE FUTURE HOLD FOR YOU IF HEALTH GIVES WAY?

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself run down, you reduce your chances for success in life—if sleeplessness comes, you score lower still—should appetite or digestion fail, you are starved in the face of physical bankruptcy.

Don't let it go so far, take Ferronine, it has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces Spring Tiredness by energy and new life. Ferronine rebuilds sick folks because it contains the strengthening elements that every run-down system requires.

Especially before the hot weather comes, everyone needs a purifying tonic—Ferronine fills the bill exactly—nothing known that juvenates and uplifts so fast.

At once the appetite improves. You rest well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way to the vigor that only Ferronine can supply. Try it, results are guaranteed, 50¢ per box or six for \$2.50 at all dealers or by mail to any address if price is remitted to the

Carruthers Co., Kingston, Ontario.

of requiring the court to determine the powers of the Provincial Legislature in respect of the civil rights in the Province of any race whose rights lie outside the subject of "Naturalization and aliens" assigned to the Dominion.

(Sgd.) J. A. MACDONALD,
C. J. A.

Vancouver, B. C., Nov. 16, 1920.

VENUS UP-TO-DATE.

Mistress: "Why, Mary, this figure of Venus is covered with dust."

Maid: "Yes'm."

Mistress: "Didn't I tell you to brush it off?"

Maid: "Yes'm."

Mistress: "And why didn't you?"

Maid (blushing): "Because, m'm, I thought it needed something on it!"

POSSESS GOOD HEALTH BY LOOKING AFTER

THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition.

When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eyes, coated tongue, foul breath; the nasty irritating, bleeding, itching and protruding proctus, you should keep your liver stirred up by the use of Milburn's Laxa-Liver Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system. Mrs. H. Barrows, Enfield, N. S., writes:—"I was troubled with sick headaches and constipation. One day a friend told me of Milburn's Laxa-Liver Pills. I got two vials, and found they did me a world of good. I therefore have great faith in them."

Milburn's Laxa-Liver Pills are 25¢ a vial, at all dealers or mailed direct on receipt of price by The T. Milburn & Co., Limited, Toronto, Ont.

"California Syrup of Figs"

Delicious Laxative for Child's Liver and Bowels

Hurry mother! A teaspoonful of "California" Syrup of Figs today may prevent a sick child tomorrow. If your child is constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good "physic-laxative" is often all that is necessary. Children love the "fruity" taste of genuine "California" Syrup of Figs which has directions for babies and children printed on the bottle. Say "California" or you may get an imitation fig-syrup. Beware!

LECTURERS FROM UNIVERSITY WILL COVER PROVINCE

B.C. University Makes Generous Offer to All Communities

Some forty lecturers will be sent about the Province by the University of British Columbia this winter to lecture on a large variety of subjects, according to an announcement made from University headquarters to-day. It is planned by the University Extension Committee, which is in charge of these lectures, to provide lecturers to all parts of the Province where sufficient public interest exists or can be aroused to warrant the necessary expenditure of time, effort and money. It is expected that several Victoria organizations will take advantage of the University's offer, and that a number of the lecturers will be heard here.

The lecturers and the subjects upon which they will speak at any point where the necessary arrangements can be made:

L. S. Klineck, M.S.A., D.Sc., President of University. The University of British Columbia in Its Relation to the Province. The New Agrarian Situation. The Rural Life Problem. In Relation to the Country Church.

R. W. Brock, M.A., F.G.S., F.R.S.C., Dean of the Faculty of Applied Science. "Bible Lands." "The Tenth Crusade—under Allenby. Mineral Resources of British Columbia. "Physical Geography of British Columbia. "Origin of Mountains. How Canadian Soldiers Overseas Educated Themselves. (Requires lantern and operator.)

F. M. Clement, B.S.A., Dean of the Faculty of Agriculture. British Columbia Agriculture and the Soldier Settler. Rural Migration. Co-operation and the Marketing of Farm Produce.

I SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little book and in the newspapers as a testimonial."

—Mrs. D. Cassidy, Box 461, Paris, Ont.

Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound.

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SCHOOL MAGAZINE

In the issue of the Public School Magazine for November, the editor and his colleagues have got together a publication that is as many-sided as it is generally excellent. Several articles appear from the pen of noted writers, and a feature of the magazine of the school life in this city is the excellent contributions from juniors, all of which reflect credit on their teachers for originality and fresh viewpoints.

The late E. O. S. Schofield, librarian of the Provincial Library, in an article on "Sir Alexander MacKenzie," recalls the famous Canadian Expedition across Canada of 1781, and is well worth perusing.

Another able contribution is from the pen of George J. Dyke, who in the third treatise on "Music and Its Logical History and Growth" gives many hints that will be of use to the present day students.

Altogether the production is ably edited and one that reflects great credit on the staff of the school journal.

FAIR COMPLEXION
CONCEALS AGE

Rid the Face of Pimples and Such Blemishes by Using Stuart's Calcium-Wafers—Surprising How Youthful One Looks.

Pimples, blackheads and other such facial blemishes may be traced to an excess of impurities being eliminated through the skin and this condition calls for calcium to enable the process of elimination to be carried on more completely.

It is the Calcium in Stuart's Calcium-Wafers that has given this complexion beautifier such a wonderful reputation.

The results are soon noted in a much finer texture, the gradual disappearance of the blemishes and a really beautiful complexion. This is considered the correct way to a handsome, lily-like skin.

Get a 50-cent box of these wafers at any drug store and observe how nicely the skin soon clears.

WHITTEN BROWN
TO INVESTIGATE
AVIATION IN CHINA

Sole Survivor of Trans-Atlantic Flight Sailed for Orient Last Night

A passenger on the Empress of Russia, which sailed last night out-bound for the Orient was Sir Arthur Whitten Brown, K. B. E., sole survivor of the first non-stop trans-Atlantic flight. It will be remembered that the late Sir John Alcock, and Sir Arthur Whitten Brown made their stirring flight in June of 1919, covering the distance from Newfoundland to Ireland in the Vickers Vimy twin engine machine, in 16 hours and 12 minutes. Sir John Alcock was killed a few months afterwards in an aviation accident in France, leaving his observer, Sir Arthur Whitten Brown as the sole survivor of the momentous voyage.

The distinguished aviator has been a week on the coast now, waiting for the Empress of Russia to take him to the Orient, where he will survey the aeronautical situation for British interests. There is a great deal of commercial aviation in China, he stated to The Times last night, and the Old Country manufacturers have found a surprisingly brisk market in the Orient for the large and heavier types of commercial machines.

While on this coast Sir Arthur was the guest of Norman Yarrow, vice president of the British Columbia Advisory council to whom he paid a flying visit on Wednesday last, and with Mr. Yarrow inspected the local plant.

The noted aviator declined to speak on the actual trans-Atlantic flight, beyond saying that the accomplishment would be more readily achieved by dirigible, mentioning the record of the R 34, the huge British dirigible that made the voyage to the new world and back without mishap. Asked as to the possibility of a trans-Pacific flight, Sir Arthur stated that such a project would need careful investigation into all the vital elements that affect the aviator, and would not likely be undertaken for some considerable time. A dirigible with a plentiful reserve of fuel would be the most likely machine, he thought, to attempt the crossing of the North Pacific.

Large Handley Page machines are now being used in China in an experimental aerial mail service, he stated, and the result of this mail service was proving satisfactory. In all China purchased \$2,000,000 worth of aircraft to establish the first aeronautical development. There was a vast future for aviation in the Orient, stated Sir Arthur, and in this matter the Orientals were likely to

teach the Occidentals the practical value of commercial aviation.

MAKING IT CLEAR.

"How will you have your hair cut, sir?" said the talkative barber.

"Minus conversational implicity," replied the patient.

"With abbreviated or totally eliminated narrations."

"What?"

"Without effervescent verbosity."

"Beg pardon, sir?"

"Let even diminutive colloquy be

Let it Rain—Here's a Boot That'll Mean Dry Feet

Slip your foot into this Leckie Boot and you'll never need a pair of rubbers or over-shoes—it's a Boot that's made to keep out the wet, and it does it.

The sole is made of heavy selected leather, treated in such a way that it is impossible for water to soak in. The uppers are from specially water-proofed velour calf—soft and pliable, yet shedding water like a duck's back. Style and appearance have not been overlooked. Here is a Boot that is built on pleasing lines. Ask for it by number—your dealer has it—

conspicuous by its absence."

The barber scratched his head thoughtfully, and then went over to the proprietor of the shop and whispered: "I don't know whether the man in my chair is mad, but I can't find out what he wants."

The proprietor went to the customer and said, politely: "My man don't seem to understand you, sir. How would you like your hair cut?"

"In silence."

The proprietor gave a withering glance at his assistant, who felt utterly crushed that he never asked the man if he'd buy a bottle of hair restorer.

STOCKS AGAIN DECLINE SHARPLY

(By Burdick Brothers, Ltd.)

New York, Nov. 19.—About the only pleasing feature in today's developments was the free supply of time and call money. This had the effect of steadying values during the early part of the session, but prices in some instances broke rather badly in the late afternoon, following the announcement that the American International Corporation had passed its quarterly dividend, the passing of which has a severe depressing effect on the shares of companies supposed to be held largely by the company mentioned.

United States Steel broke into new low ground, and a new low level in the industrial stocks was registered.

HIGHER EXPRESS RATES OPPOSED

Increase Affecting Foodstuffs
Argued Against at Rail-
way Board Sitting

Montreal, Nov. 19.—Opposition to an increase in the tariffs of the express companies as regards the carrying of foodstuffs was made this morning before the Dominion Railway Commission when it met here. The city of Montreal, the Canadian Manufacturers' Association, the Montreal Board of Trade, the Montreal Chamber of Commerce and the Canadian Fisheries were among those who submitted arguments through their representatives against the proposed forty per cent increase in rates to the express companies.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, Nov. 19.—The market continued bullish to-day and heavy declines were recorded in all grains. The most serious factor was the ease with which large quantities of wheat for nearby deliveries are obtained and the converse is true, namely, that selling short on hedging sales tend to depress the market at once.

Cash wheat was in good demand and premiums were slightly higher with some new business reported. Small quantities of coarse grains also showed market desires in sympathy with wheat. There was little change in the cash market for coarse grains.

Wheat closed 1/4 to 1/2 lower; oats 1/4 to 1/2 lower; barley 1/4 to 1/2 lower; flax 1/4 to 1/2 lower, and rye 1/4 to 1/2 lower.

Nov. 19, 1920. Too Much Appetite may be as dangerous as too little

When the skin is sallow or yellow, the eyes dull, the head aches or sleep broken and unrefreshing, the back aches, or there is a pain under the right shoulder blade—it is an indication that the body is being poisoned by poorly digested and imperfectly eliminated food-waste. It is a wise thing to take

Beecham's Pills

to relieve these symptoms by helping to remove the causes

RE-INSTATEMENT FOR TWO MONTHS

Saanich Majority Favors Road Superintendent for Temporary Appointment

Saanich Council last evening re-instated by a majority vote of five to three Road Superintendent Girling until the end of the Council's term.

Action to this end was taken after Reeve Watson had told the Council that some one must be put in charge of the work of the municipality, which was getting into a serious condition. He explained that he had been called in to deal with many matters which belonged properly to an official.

Councillor Pim: "They are short of foremen. Foremen are looking after more than one ward, and that is impossible." He quoted cases in point, and said the system was not working satisfactorily.

Divergence of Opinion
Councillor Brooks: "When I supported the dismissal of the engineer more work was to be done. If the work has got to be done at once I am quite agreeable that the superintendent should be re-instated until the end of the council term." The councillor moved a resolution, which Councillor Henderson seconded, to re-instate Mr. Girling to the end of the year.

Councillors Graham and Clark opposed, on the ground that the issue had twice already been rejected by the council.

Councillor Clark stated work had developed overnight, which should have been done earlier in the year. "We must have co-ordination in our work," he admitted, but declared it would be a bad policy to adopt the course recommended. He was surprised that a surplus of revenue was reported, and that circumstances had developed as now reported. He understood no additional appropriation had been made to the ward funds, and if there was the surplus claimed only a small amount should be expended, and some surplus left to their successful. Personally, he thought the council might have an engineer's advice, at practically the same figure as the cost of a road superintendent's salary, though, perhaps, it would be better to carry on as at present until the next year, he contended.

The Reeve pointed out that the question had been thoroughly threshed out, and a new debate would be unnecessary.

Councillor Brooks stated that they had formerly had too much supervision; now they had none. He spoke for the general good of the municipality, and action, in his opinion, was necessary, in view of the fact before them, that the cost of maintaining roads was more now than before, owing to lack of supervision. Councillor Dooley followed Councillor Henderson, who had defended the re-instatement of Mr. Girling. Councillor Dooley said Mr. Girling had been a "most faithful servant."

Councillor Graham: "When the man has been voted out, let him stay out."

Reeve Watson stated three accidents had occurred since the dismissal of the superintendent.

"Councillor Pim differed with the Reeve on the latter argument."

Councillor Terrell said some of the councillors appeared to be animated by personal differences with the late superintendent, rather than policy.

Councillor Clark then moved an amendment that applications should be invited for the position by public advertisement for a road superintendent, with or without engineer's certificate.

The Reeve pointed out that the 1919 council was criticized for appointing an engineer just before its term expired.

The amendment of Councillor Clark was defeated by 5 votes to 3 votes. Councillors Clark, Pim, and Graham voted for the amendment, and the Reeve, Councillors Terrell, Henderson, Brooks, and Dooley for the motion.

"DANDERINE"

Girls! Save Your Hair! Make It Abundant!

Immediately after a "Danderine" massage, your hair takes on new life, lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay lifeless, colorless, plain or scraggly. You, too, want lots of long, strong, beautiful hair.

A 35-cent bottle of delightful "Danderine" freshens your scalp, cheeks, dandruff and falling hair. This stimulating "beauty- tonic" gives to thin, dull, fading hair that youthful brightness and abundant thickness—All druggists!

A Lancashire cotton spinner left home and family to make his fortune in America. Two months afterwards his wife was standing in the garden when a neighbor shouted over the fence, "Have you heard the news? America's gone dry."

The absent man's wife took it calmly. "I'm not surprised," she replied. "I alius said I've give our Joe about a month an' there's not a country in the world that he couldn't drink dry."
